aqua play area

aqua play area

- the surprise, wet play area
- made from fibreglass composite and thermoplast material
- finished with 5 coatings
- optimum resistance to UV, scratching and chlorine
- modules are interchangeable; you can change the design and add more to it
- maximum safety
- difficult to climb on due to special diameter tube
- lighter than steel and can be installed without foundation
- water supplied from under the bottom, place the object and bolt it
- easy to dismantle for winter period
- hardly any moving parts; therefore nearly "zero" chance on break downs
- the "plug-in & play" products do not need a connection to the water pipe; they do have an internal, mechanical pump
- replacement parts available
- minimum water depth 15cm
- optimum water depth 30cm
- prices are just an indication as object will be built to your specification
- pumps, filtration system and water pipes are not included
- for aqua play area special terms and conditions apply
- see our website for much more information
- our advisors are happy to visit you and discuss your options
- then we prepare a proposal, map and quotation

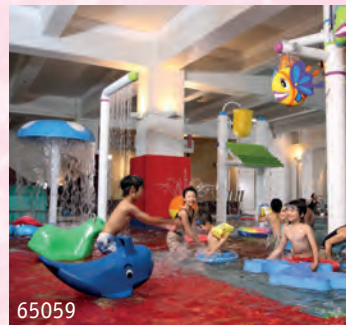

baby bungee canopy

- plug-in & play
 - no water pipe required
 - not a carousel
 - height: 2805mm
 - diam.: 2135mm
- 65053**

water bike

- plug-in & play
 - no water pipe required

kickboards

aqua-trainer kickboard

- CL28 foam
- 2-part kickboard that can be used separately or combined
- useful as;
 - normal kick-board
 - variable resistance float for leg work
 - variable resistance float for hand/arm work
 - as pull buoy
 - turning the float changes resistance
 - training aid for all standards
- rapid improvement of stamina and endurance

10458

triangle balance kick

- CL28 foam
- size: 550 x 330 x 42mm
- both sides heat embossed for extra strength and grip
- universal training aid; kick-board, leg trainer, pull buoy, resistance float & back trainer in one
- 2 handholds and 2 top-handles
- blue/white/blue
- width allows less torsion in the body to provide more effective training
- used for 10 minutes each training session will build up stamina and endurance.

30659

swim paddles

euroswim hand paddles

- flat moulded paddle
- with adjustable, round elastics and finger grip
- colour: assorted from stock

82395 universal

back/breaststroke paddles

- flat moulded paddle
- with adjustable flat elastics
- colour: yellow

80665 universal

replacement elastics for paddles

- set for one pair of paddles
- 30075** flat elastics
30076 round elastic band (1m)

strokemaster hand paddles

- moulded paddle with formed top to fit perfectly into the palm of the hand
- effective placement of the hands
- adjustable in many ways, round elastics
- colour: black
- packed in zipper bag

82394 small 17 x 14cm

80667 medium 21 x 18cm

80666 large/overload 24 x 21cm

swim paddles

finis antipaddles

- unique shape for a better swim technique
- 20% less pressure on the shoulders

65208

finis PT paddles

- improves pull length and pull strength
- special surface profile for optimum grip

65209

finis bolster paddles

- gain upper body strength and perfect early vertical forearm technique
- with double velcro

65210

training materials

aqua-gloves / webbs frogs

- thick walled gloves made of thermoplastic material
- open design; fingertips extend for optimum fit
- specially recommended for intensive use
- sizes: S, M & L

80551

84000-84006

training tube

- for arm training, holds legs together allowing more resistance and helps the body maintain the correct position
- adjustable by more or less inflation

10459 junior/women, 15cm inside Ø

10460 senior/men, 20cm inside Ø

84006 45-46

barbell multi-trainer

- floating, large aqua barbell, 107cm wide
- all-in-one trainer:
 - hand held as float in swimming instruction
 - use as upper body support for leg training
 - ideal as resistance float for competitive swimmers
 - synchro-swimming and water polo exercises
 - for extra sideways stability
 - also suitable for the elderly, disabled and hydrotherapy

30236 senior

30237 junior

80857 mini

training materials

power training balls

- synthetic medicine balls with good grip
- also for use in water

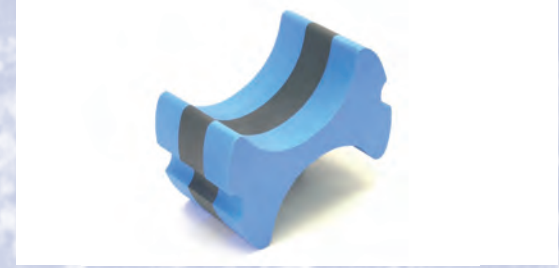

99705	500g, 10cm, green
99710	1000g, 12cm, red
99720	2000g, 15cm, yellow

99734	4000g, 20cm, purple
99735	5000g, 23cm, red

drag ring donut

- ankle ring made from open cell foam
- absorbs water for increased drag & resistance
- keeps legs together and the extra buoyancy helps to keep the body horizontal

10467

pull buoys mono-bloc extreme

- one piece pull buoy from CI35 foam; extremely skin-friendly
- high resistance due to larger size
- more effective training
- colour: blue

62291 universal

fulcrum

- creates the ideal elbow-wrist angle

82603 senior

82604 junior

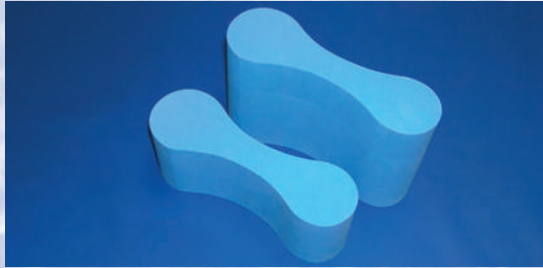

pull buoy mono-block

- for breast, back crawl & arm training
- one-piece PLASTAZOTE™ foam pull buoy
- a-symmetrical design offers variable buoyancy
- colour: blue/white/blue

10465 universal

training materials

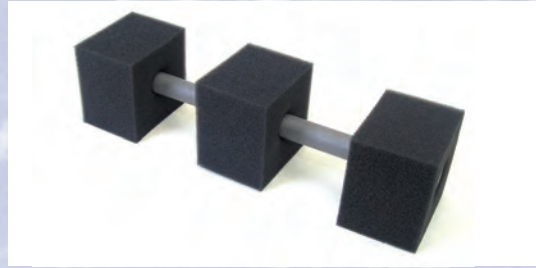

pull buoy mono-bloc blueboy

- one-piece pull buoy from CI35 foam in extremely skin-friendly quality
- a-symmetrical design offers variable buoyancy
- colour: blue

37001 senior/men

37000 junior/women

the 6th stroke trainer (pat.pend.)

- the ultimate swim aid for training from the 6th stroke
- offers the most effective leg training possible
- high resistance that increases further if speed goes up
- neutral buoyancy; no upwards floating
- with 2 soft coated hand grips
- extra wide for more stability

79040

stretch cords

- elastic cord to help develop arm & leg strength
- complete with woven band handles
- with multi-kernel elastic cord

10017 senior/men

10016 junior/women

pull buoys duo-bloc

- 2 foam cylinders with adjustable cord

10463 senior, 10cm Ø, white

10464 junior, 7cm Ø, red, blue, yellow, green, orange or purple

resistance trunk

- with 4 open cups
- 100% polyester mesh
- to wear over swim trunk or swimsuit
- sizes: S, M, L & XL

79025

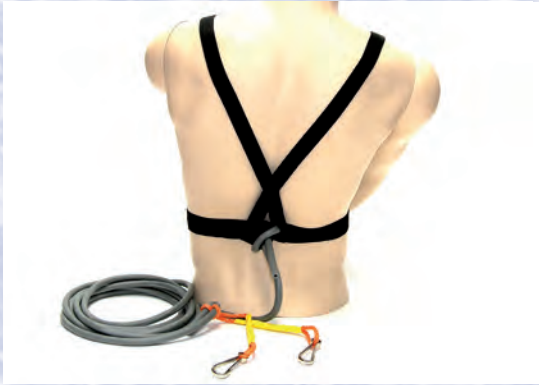

drag belt

- adjustable belt with quick-lock buckle and 5 tapered resistance cups
- the resistance increases with speed
- personalise by varying number of cups used

10473

training materials

stretchyTube™ aqua-gymmy

- latex tube that can be stretched to 5 times its own length
- when power and resistance are equal, the user will swim "on the spot"
- adjustable vest with shoulder straps and 5m latex tube plus a fastening cord

10456 aqua-gymmy complete

10457 aqua-gymmy replacement tube

stretchyTube™ multi-trainer

- fixing belt with a double latex tube that can be stretched to 5 times its own length
- complete with pulse and ankle belts with Velcro clothing
- for arm and leg training in and outside the water
- latex tube 120cm long

66954

speed & power trainer

- a "brake-parachute" connected with a belt to an adjustable belt
- the faster you swim, the higher the resistance

66955

stretchyTube™ condi-trainer

- latex tube that can be stretched to 5 times its own length
- complete with handles
- with 1,2m latex tube
- length including handles approx. 140cm

80389 extra strong, black

80133 strong, red

80134 medium, green

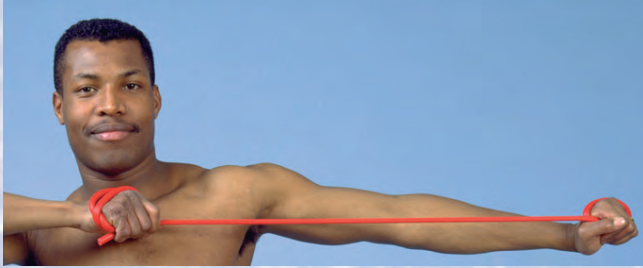

stretchyTube™ stretch cords

- latex tube that can be stretched to 5 times its own length
- complete with synthetic leather handles
- with 5m latex tube

10471

training materials

aqua-training tube

- tube with progressive resistance
- for training of all muscles
- can be stretched up to 4 times original length
- length 120cm

60229 black / extra strong

60102 red / extra strong

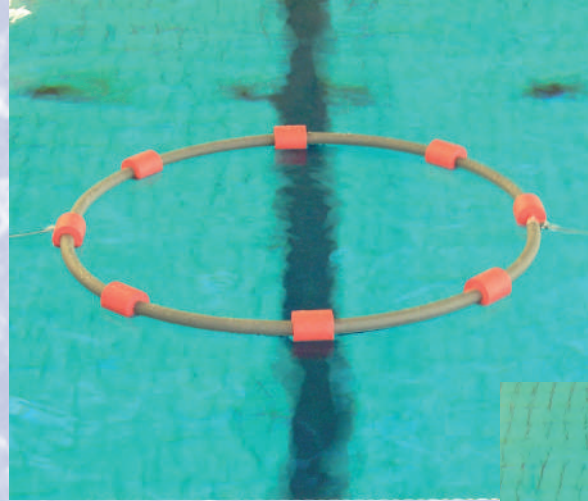

60103 green / medium

swim roll

- a PE foam cylinder on a synthetic bar
- forces arm into a spread position to give better stability
- ideal for leg training and also suitable for the elderly or disabled

10475.1 senior

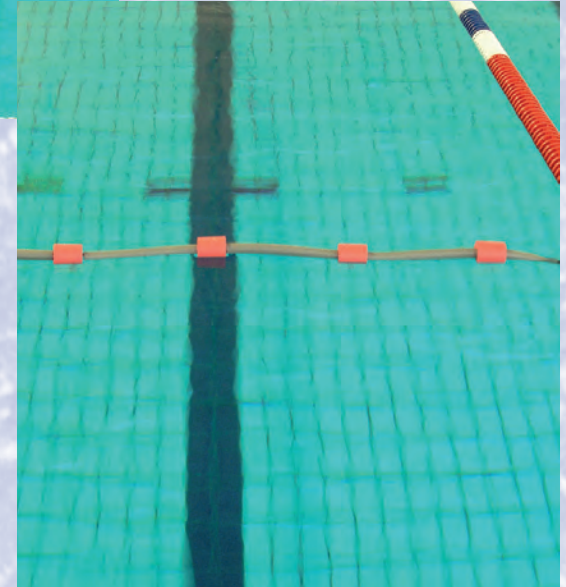

10475.2 junior

swim start acceleration set

- with the correct start you can win quite a lot of time
- hang the ring between the swimming lane lines
- hook the line over the swimming lane lines
- start, dive through the ring, go under the line and up to the surface
- position adjustable to the level of the swimmer
- set is ring with fixings and line with fixing
- covered with PE foam for more safety
- available for 250 and 200cm wide lanes

64007

pace & training clocks

handy training clock

- synthetic case with plexiglass front; suitable for humid conditions such as poolside
- size: 45 x 57 x 10/20cm (wxhxd)
- quartz battery motor
- start/stop button on the top
- free standing design
- battery not included (standard penlight)

62282

prima super training clock

- aluminium case with plexiglass front
- size: 67 x 67cm
- electric motor (24V) with 20m cable
- transformer built into plug
- hand-cross in 4-colour design
- one rotation per 60 seconds
- free standing design
- suitable for continuous use

10129

20002 transformer, loose

20003 motor, loose

stand for prima super training clock

- training clock stands extremely stable
- specially for outdoor with strong wind
- stainless steel with foam coated inner side
- price per set (2 pieces)

82470

pace & training clocks

prima giant training clock

- aluminium case with plexiglass front
- size: 90 x 90cm
- electric motor (24V) with 20m cable
- transformer built into plug
- hand-cross in 4-colour design
- one rotation per 60 seconds
- model for wall mounting
- suitable for continuous use
- stands optional, art. 82470

79007

epsan stopwatch

- aluminium case with plexiglass front
- 9V battery motor
- model for wall mounting; also free standing to use (with turning foot)
- suitable for continuous use
- model with second and minute hands
- start/stop and quick reset

65207

Elbaka

elbaka training clock

- aluminium case with plexiglass front
- 220-230 V motor
- model for wall mounting
- suitable for continuous use
- model with second hand
- complete with lighting

79008 70 x 70cm

79009 90 x 90cm

79010 110 x 110cm

- model with hand-cross
- complete with lighting

79014 70 x 70cm

swim training machines

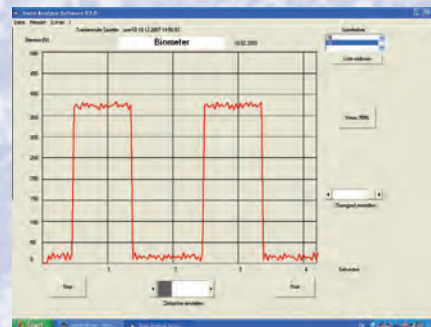

swim bench bio

- isokinetic swim bench with electronically controlled resistance unit
 - very easy to operate
 - 10 speed grades selectable
 - force is indicated in Nm
 - integrated computer output using the optional swim-analyzer software or a recorder
 - complete with ropes, paddles and cushion-frame bench
- 79002**

swim-analyzer software

- for bio and bio-meter swim benches
 - for capturing and analysis of force/time, resp. speed/time charts
 - incl. data box for using MS Windows computer
- 79004**

swim bench bio-meter

- for many years established instrument for performance diagnosis and special training
 - the integrated force sensor finds out basic data for a detailed analysis and an electronic controlled resistance unit generates the unique isokinetic force progression
 - the plotting unit shows alternatively force, work, power, frequency or extension length
 - the integrated memory can be read out with a printer after the exercise unit and shows the swimmer directly the result of his practice and his standard performance
 - force progression can be shown, stored and compared online on the computer with the optional swim-analyzer software.
 - complete with ropes, paddles and cushion-frame bench
- 79003**

swim training machines

speedo-meter

- easy portable instrument for exact measurement of speed in the water
- put it only on a starting block, hook the rope in the light belt and start swimming
- with a specific generator the speed of the rope will be changed in an analogue signal which can be seen directly on a plotter or with the optional swim analyser software on PC
- 27m extension length
- quick rewinding of the rope by pushing a button
- complete with installed battery, charger, rope and swim belt

79006

swim force tester

- high precision force measuring unit for determination of driving force in water
- for fixing on a starting block
- or with an optional height adjustment for 42mm Ø socket
- battery controlled analysis unit with maximum-value-memory, limit value and analogue output for signal transmitter, recorder or software (optional)
- the force progression can be observed directly by the trainer
- resistant up to 200 daN
- complete with battery, charger, shock-absorber, 12m Kevlar rope, swim belt, analysis unit and force load cell

79005

stopwatches

epsan selecta memory trio display stopwatch

Our most versatile stopwatch:

- electronic quartz stopwatch
- LCD digital display
- 2 x 60 memories
- with 3 displays
- running time and cumulative running time shown simultaneously
- running time (count up or down) 10 hours
- correct time, split & lap timing
- split & lap timing can be read simultaneously
- countdown with acoustic signal
- shuttle countdown with acoustic signal
- unlimited interruption; count up and count down
- buttons with clear resistance
- includes battery
- includes instructions

30327

epsan multistar memory trio display stopwatch

Our stopwatch with stroke frequency function:

- electronic quartz stopwatch
- LCD digital display
- 2 x 60 memories
- with 3 displays
- with stroke frequency function (10-180 per minute)
- running time and cumulative running time shown simultaneously
- running time 10 hours
- correct time, split & lap timing
- split & lap timing can be read simultaneously
- unlimited interruption
- buttons with clear resistance
- includes battery
- includes instructions

69052

30327

69052

stopwatches

dig printer

- can be connected to the DIGI DT500 stopwatch
- measured values can be printed straight away or later

80826

accessories digi

80827 printer rolls, 5 rolls of 3 metres

80828 connector and software to connect the stopwatch to a PC, so you can enter all the recorded values into the TXT files

digi dt-500 memory stopwatch

Top quality stopwatch with many functions:

- electronic quartz stopwatch
- LCD digital display
- with 2 x 500 memories
- memories can store lap times, interval times and total times simultaneously
- shows quickest, slowest and averaged lap times
- with 3 displays
- start/stop reset with automatic time correction after split
- with countdown function and pacer function
- buttons with clear resistance
- including batteries

80825

sportclock table model

- digital table clock / stopwatch
- count-up functions: hours, minutes, seconds, 1/10 minute and 1/10 and 1/100 seconds
- countdown with memory and alarm at the end of the countdown period
- t.o.d. clock with calendar and alarm
- size: 90 x 160 x 70mm
- battery powered

82445

aqua-fitness

aqua-jogging belt star

- size 730 x 225 x 34mm
- made of CL35 foam
- inner & outer side heat embossed; extra strong surface and optimum skin-friendly
- adjustable belt with quick lock buckle fitting
- colour: blue/white/blue
- recommended for less intensive use in public pools, private use and re-sales

80588

storage trolley for aqua-belts & aqua-dumbbells

- size 140 x 70 x 97cm (lxwxh)
- synthetic profiles, 55 x 50mm.
- can be rolled away
- taurinyl reinforced synthetic cloth inner
- delivered unassembled
- no tools required for assembly

80859

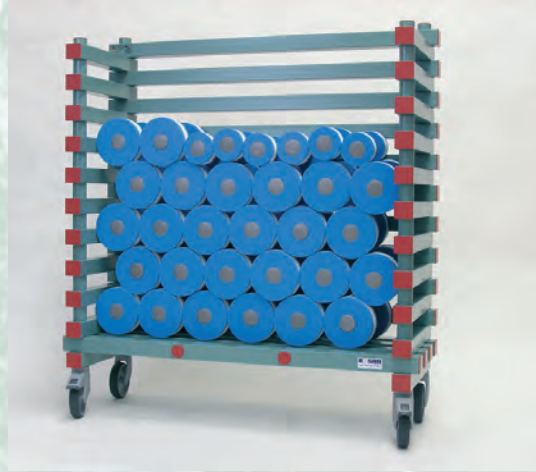

aqua-jogging belt pool-jogger

- size: 850 x 240 x 30mm
- made of elastic CF35 PE foam
- soft and supple and skin-friendly material
- inner side heat embossed; optimum skin-friendly
- outer side fine embossed; maximum resistant against damaging
- adjustable belt with quick lock buckle fitting
- belt goes through a special belt loop protecting foam
- colour: blue
- recommended for intensive aqua-jogging classes, instruction and private use

50326

aqua-fitness

aqua-jogging dumbbells super-pro™

- these innovative aqua-dumbbells offer more possibilities than any other dumbbells
- developed in cooperation with STEPH TOOGOOD; one of the worlds leading aqua-fitness instructors and presenters
- special open cell foam with neutral buoyancy, which means that the aqua-dumbbells remain in the water depth required
- isocinetic resistance; the faster the speed of movement, the larger the resistance
- bloc shaped; do not roll away and are easy to store
- price per pair

82425

aqua-dumbbell storage trolley

- size 140 x 40 x 125cm (lxdxh)
- made from synthetic material; will not rust
- for 50 pair of 155mm Ø dumbbells
- with 4 castors (2 with brake)
- delivered assembled

62269

aqua-jogging dumbbells super

- made of CL35 PE foam
- with heat embossed skin for extra strength
- with special, soft-coated grips
- colour: blue/white/blue
- are easier to transport than standard dumbbells
- recommended for intensive use in public pools, private use and re-sales
- price per pair

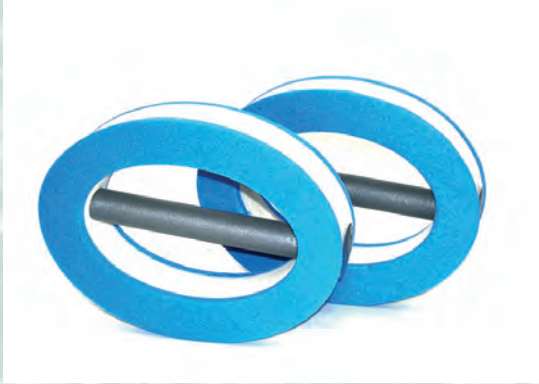

82423 super-185 disc 185 x 104mm

82422 super-155 disc 155 x 104mm

82421 super-100 disc 100 x 104mm

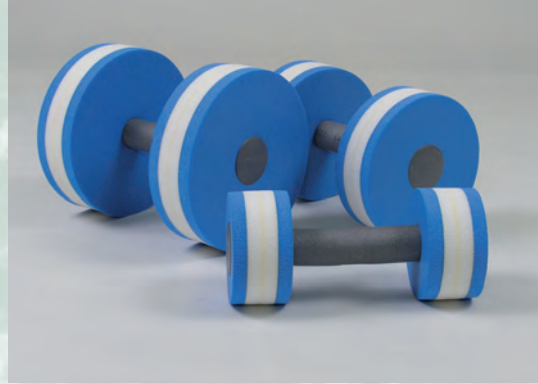

aqua-fitness

aqua-dumbbells ellipse

- variable resistance
 - made of CL45 PE foam
 - with heat embossed skin for extra strength
 - with special, soft-coated grips
 - colour: blue/white/blue
 - recommended for intensive aqua-jogging classes and instruction
 - price per pair
- 80668** type universal

aqua-jogging dumbbells star

- made of CL35 PE foam
- with heat embossed skin for extra strength
- with special, soft-coated grips
- colour: blue/white/blue
- recommended for intensive use in public pools, private use and re-sales
- price per pair

80586 senior disc 185 x 52mm

80578 universal disc 155 x 52mm

80584 universal disc triangular, 52mm thick

80587 junior disc 100 x 52mm

aqua-dumbbells futura

- star shaped dumbbells that will not roll away
- made from PLASTAZOTE™ LD33 PE foam
- with special soft coated hand grips
- colour: assorted in duo-colour combinations
- recommended for intensive aqua-jogging classes, instruction & re-sales
- price per pair

81040

aqua-fitness

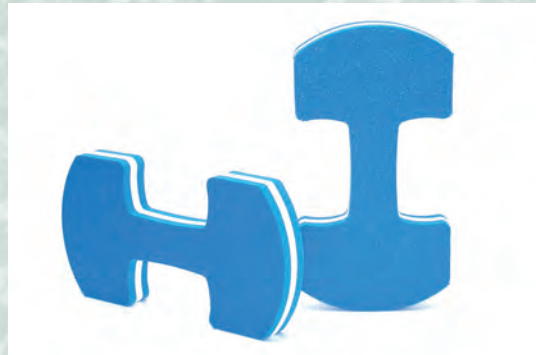

aqua-dumbbells block

- block shaped dumbbells that will not roll away
 - each side with 3 blocks 80 x 80 x 30mm
 - made from CS75 PE foam
 - with special soft coated hand grips
 - colour: blue/white/blue
 - recommended for intensive aqua-jogging classes, instruction & re-sales
 - price per pair
- 23034**

aqua-hands

- flat formed in dumbbell design
 - made of CS75 PE foam
 - vary resistance by turning the aqua hands
 - colour: blue/white/blue
 - recommended for intensive aqua-jogging classes and instruction; nearly indestructible
 - price per pair
- 80591**

aqua-dumbbells oval

- oval shaped dumbbells that will not roll away
 - each side with 3 discs 110 x 90 x 28mm
 - made from PLASTAZOTE™ LD33 PE foam
 - with special soft coated hand grips
 - colour: blue/white/blue
 - recommended for intensive aqua-jogging classes, instruction & re-sales
 - price per pair
- 22985**

ankle cuffs

- ankle/foot pads for extra resistance and buoyancy
 - EVAZOTE™ PE foam; soft and comfortable
 - with Velcro fastening
 - universal size
 - per pair
- 50381**

aqua-fitness

aqua-jogging dumbbells budget plus

- sturdy, strong USA style aqua-jogging dumbbells
- close celled, cross-linked PE foam with reinforcement skin all around
- with special soft coated hand grips
- 145mm Ø
- extremely good prices; ideal for re-sale
- price per pair

82600 S 75mm thick discs

82601 M 100mm thick discs

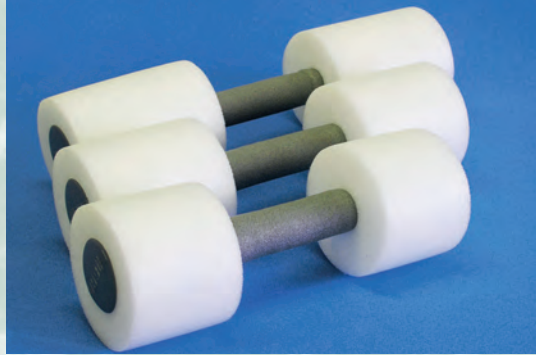

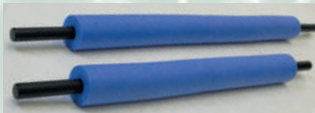

82602 L 125mm thick discs

aqua noodle bar

- the buoyancy of a noodle with the rigidity of a bar

aqua-gloves / webbs frogs

- thick walled gloves made of thermoplastic material
- open design; fingertips extend for optimum fit
- specially recommended for intense use
- sizes: S, M & L

80551

the original aqua-step

- size: 68 x 36cm
- height 13.5 / 18.5cm
- anti-slip top
- extremely durable design
- remains stable on the pool-floor

30798

aqua-step storage & transport trolley

- size: 150 x 75 x 100cm (lxdxh)
- made from synthetic material; will never rust
- for 9 aqua-steps
- with 4 castors (2 with brake)
- delivered unassembled
- on special demand also available in other sizes

82426

aqua-fitness

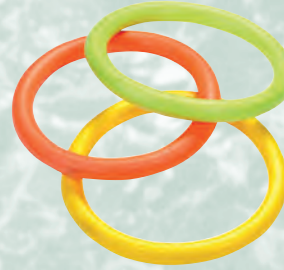

Aquatwin BECO

- power sandals for abdomen, leg & butt-training
 - foot belt with velcro
 - sizes 36-41 (red) & 42-46 (blue)
 - per pair
- 88027**

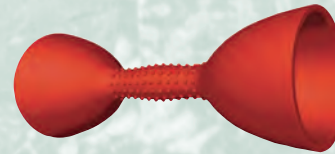

AquaDisc BECO

- moulded PE-foam with skin
 - for upper body conditioning, strength and endurance
 - size: 240mm Ø, 45mm thick discs
 - per pair
- 88026**

UniversalRing BECO

- universal training aid with buoyancy
 - EVA-foam
 - ca. 34cm Ø
 - per piece
- 88029**

NordicJet BECO

- for nordic walking training
 - resistance increases with the speed
 - both cups in different size for beginners and experienced users
 - per pair
- 88040**

aqua-fitness

Dynafloat BECO

- neoprene belt with floats at both ends
- length 90cm, floats 17cm Ø
- ideal for coordination, balance and strength endurance for aqua-fitness and rehabilitation
- per piece

88028

DynaPad BECO

- the correct position starts with the feet!
- the DynaPad helps with balance and strengthens the whole body
- the hedgehog structure stimulates the muscles and the musculature
- delivered in assorted colours depending on stock position
- size: (lxbxh) 28 x 23 x 4,5cm
- per piece

88030

BEtomic BECO

- universal training equipment for the whole body
- can be used with hands and feet
- EVA-foam with buoyancy
- delivered in assorted colours depending on stock position
- ca. 17cm Ø
- per piece

88031

BeFlex Handpaddles BECO

- multifunctional aquatic fitness tool made of silicone
- the special shape gives an optimum transmission of power
- due to its negative buoyancy the BeFlex is ideal to combine with other buoyancy equipment
- delivered in assorted colours depending on stock position
- size: (lxw) ca. 30 x 8cm
- per pair

88032

aqua-fitness

flexibeam pool noodle

- super flexible, strong foam cylinder
 - universal size for aqua-fitness, aqua-aerobics, water-recreation and swimming for all ages
 - delivered assorted in colours
 - length 160cm, diameter 67mm
- 50320**

- length 120cm, diameter 60mm
- 88041**

flexibeam storage trolley

- mobile synthetic basket for up to 40 flexibeams
- solid synthetic material
- open design allows water to drain easily
- optimum air circulation; material dries quickly
- with castors

80650 60 x 106 x 40cm (lxhxd)

82414 60 x 138 x 40cm (lxhxd)

flexibeam carry belt

- adjustable with quick-lock buckles
 - for 20 flexibeams
- 65202**

80857	mini	7cm Ø

wetshaper

- for aqua-fitness, aqua-jogging, activities for the elderly, swimming exercises and hydrotherapy
- alternative to foam aqua-dumbbells
- same use as standard dumbbells as each piece weighs 450 gram
- special grip allows use of one piece or one pair per hand
- more resistance in the water & more resistance above or out of the water
- also to stand on and use as twister-disc
- also for star jump leg exercises
- extremely durable synthetic material
- price per pair

81098

legshaper

- for aqua-jogging in deep water
- use with aqua-jogging belt for beginners
- without aqua-jogging belt for experienced joggers
- adjustable foot straps with Velcro closing
- special shaped under offers maximum stability
- for muscle toning, body shaping, aqua-power and fifty-fit activities
- specially recommended for aqua-spinning bicycle training as perfect alternative for aqua-spinning bikes
- condition-stepping
- for star jump leg exercises, twist exercises and sliding on the pool bottom
- price per pair

81099

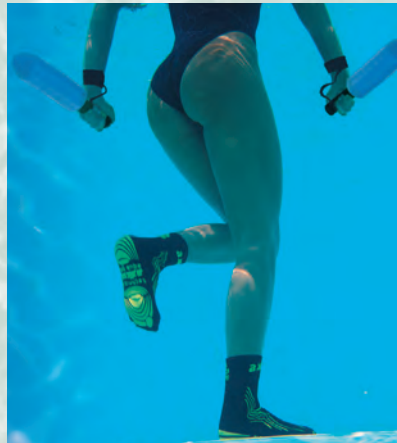

aqua boxing gloves

- fitness, endurance and reflex-training in the water
 - foam gloves with formed upper (for fingers)
 - PLASTAZOTE™ LD33 foam
 - per pair
- 80962**

aqua-nordic walking short sticks

- short sticks with foam float
 - covered hand grip with elastic wrist belt
 - per pair
- 62314**

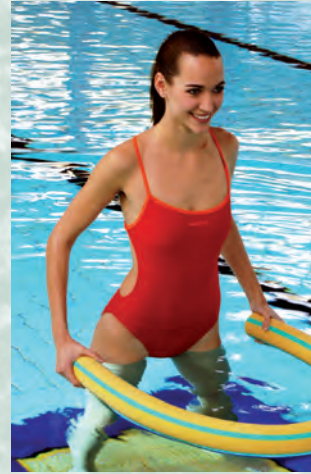

aqua-aerobic instructors floor

- adjustable tiles, 100 x 100 x 2,5cm
 - made from CL45 foam
 - allows instructor to stand on a non-slip mat and not on slippery, wet tiles
 - safer and less physical pressure
 - colour: red/green
 - recommended quantity: 4 pieces
- 80330** per piece

aqua-fitness & hydrotherapy

minitramp rebounder

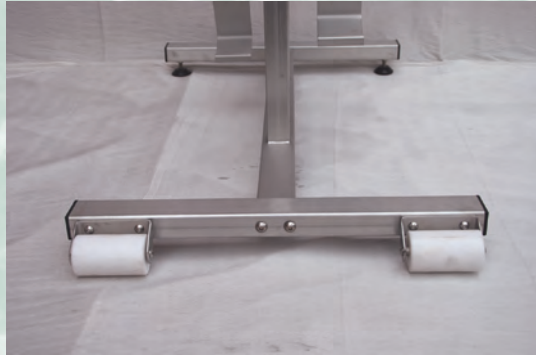

- the newest aqua-fitness activity
 - ideal for hydrotherapy
 - ideal to re-build condition after sport accident, operation and for rehabilitation
 - stimulation for heart and blood circulation
 - tightening effect for stomach, legs and bottom
 - also for elderly people and non-swimmers
 - makes fit, hip preserves, knee and spinal column as the load in the water is much lower
 - stands fixed and stable with vacuum hooks and removable foot posts
 - made from V4A stainless steel
 - jumping/bouncing mat 735 x 735mm, made from lattice fabric with PVC coating
 - includes foam filled safety pads to cover the frame and springs
 - size: 100 x 100 x 27cm
 - weight approx. 15kg
- 82492** per piece
82492.qty per piece for minimum 5 pieces

aqua-fitness & hydrotherapy

hydro bike epsan

- made of stainless steel AISI 316 in EN/BS 1.4404 quality
- stained and electric mirror polished
- laser cut steel to guarantee perfect fitting
- frame height adjustable
- saddle and handlebar adjustable forwards and backwards
- extra wide transport rolls for easy moving to and from storage
- 50mm Ø rubber feet protects the pool floor
- infinitely adjustable resistance with button
- highly uniform resistance

- very durable resistance system
- special pedals for increased resistance
- water depth: 120 - 180cm
- size: 105cm long, 60cm wide
- weight: 24kg

80892 per piece

80892.qty per piece by 11 pieces

hydrotherapy

flexibeam float mat holders

- make a floating mat using these holders and 6 flexibeams
- perfect for hydrotherapy and for fun
- set of 2 pieces (flexibeams not included)

80651

flexibeam float mat classic

- floating mat in rainbow colours
- size: 150 x 50 x 3cm
- with 8 holes to fix the flexibeams in
- support the user in the water
- flexibeams not included

80263

flexibeam pool noodle

- super flexible foam cylinder
- length 160cm, dia. 67mm

50320

- length 120cm, dia. 60mm

88041

- for flexibeam storage trolleys, see chapter synthetic storage trolleys

flexibeam connectors

- build up a variety of functional floating aids

80214 S, 140mm length,
without cross-connection

80259 M, 220mm length,
with 1 cross-connector

80260 L, 320mm length,
with 2 cross-connectors

hydrotherapy

ORIGINAL MEDICAMAT

“original medicamat” aqua therapy mat

- the perfect mat for hydrotherapy
- made from elastic CF35 PE foam
- extremely high buoyancy
- flexible material, the user lies stable in the middle
- light and manageable
- special skin friendly top-finish

40157	SAVALO	195 x 60 x 1,5cm, blue
40158	SAVALO	195 x 60 x 1,5cm, green
40159	SAMARO	195 x 60 x 2,8cm, blue
40160	SAMARO	195 x 60 x 2,8cm, green
40161	BAVALO	195 x 100 x 1,5cm, blue
40162	BAVALO	195 x 100 x 1,5cm, green
40163	BAMARO	195 x 100 x 2,8cm, blue
40164	BAMARO	195 x 100 x 2,8cm, green

float holes play mat

- made from unbreakable CL45 PE foam
- top & bottom side heat embossed; extra strength and optimum skin-friendly
- very high buoyancy
- strong, firm, durable and very good stability
- with holes for intensive contact with the water and for better grip
- trapezium formed; the buoyancy and the stability there where needed
- colours: blue or yellow

30729 float holes mat
1000 x 735/500 x 14mm

deluxe float cushion

- floating mat / lounge mattress with end curled to create a head cushion
- made from CL28 foam with a very good buoyancy
- size 225 x 60 x 2,5cm
- length when using cushion 180cm
- colours: blue or green

80856

hydrotherapy

barbell multi-trainer

- floating, large aqua-dumbbell
- 107cm width
- the “total” trainer :
use as a float for swimming
hang over with arms for leg training
resistance float for the competitive swimmer
- for extra stability use sideways

30236 senior 15cm Ø

30237 junior 10cm Ø

80857 mini 7cm Ø

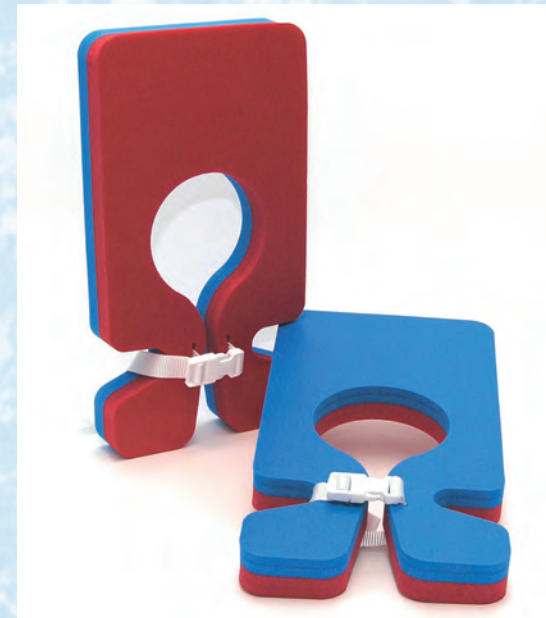

swim rolls

- a PE foam cylinder on a synthetic bar
- forces the arms into a spread position and provide good stability

10475.1 senior

10475.2 junior

super foam swim collar

- made of CL45 PE foam; cannot be punctured, will never deflate
- with adjustable strap
- oversized design for increased stability
- in bright duo-colour

30367

pouched eggs / egg flips

- for teaching the HALLIWICK breathing technique
- exhale correctly to turn the eggs over in the water
- swimmer and instructor can see if breathing is correct
- 2 colour design ensures good visibility
- set of 10 pieces

10924

hydrotherapy

aqua-massage mat

- floating mat
- built from cylinders which rotate against each other
- for relaxing, exercise and massage
- user lies on the mat in the water and does not “float above the water”
- supplied in assorted colours

80344 200 x 95 x 7cm

80369 200 x 60 x 7cm

80964

hydro rehabilitation glider

- for exercise walking in the pool
- a floating glider that will support the walker
- the glider floats on the water surface to follow the walker

80964

hydrotherapy

aqua-sage© / bobbing©

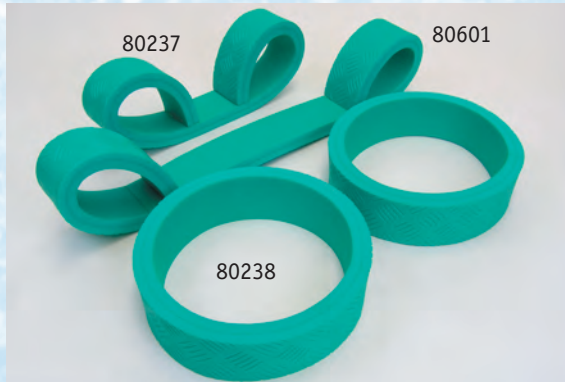

- the latest aqua-activity
- bobbing for rest between exercises
- bobbing as relaxation
- de-stress, resting the body, aqua massage
- a perfect activity for elderly participants
- per participant you need at least 1 head & 2 leg floats

80237 head float

80238 leg float, per piece

80601 body float

80398 set (1 head -, 2 leg - & 1 body float)

aqua-cuddle ©

- hydrotherapy, exercise, training, bobbing, relaxation; all in one
- inflatable support elements offer more than adequate buoyancy (from child up to heavy adult)
- optimise the individual buoyancy by inflation
- support elements can be placed where buoyancy is needed
- clear, extra strong and flexible foil with coloured foam pieces inside
- attractive moving foam pieces also provides play element
- set consists of a body float, a head float and a leg float

80858 set

fins

water polo

A totally new generation of competition balls. Butyl rubber bladder with nylon reinforcement and top surface made of XYTAZ® SUPER COMPOUND material and a new method of buffing. These 3 components have been melted together. An unprecedented perfect grip that will last almost forever. XYTAZ® SUPER COMPOUND material is a worldwide exclusivity from EPSAN.

epsan diamond polo

- due to worldwide patented rib in the black lines, a 90% better grip
- this leads to an absolute perfect ball handling, faster match & more goals
- XYTAZ® SUPER COMPOUND material
- competition ball according FINA & LEN regulations
- competition ball for the European Championships 2008 in MALAGA

62293 EPSAN DIAMOND POLO, size 5, men, highly visible neon duo-colour orange-yellow

62294 EPSAN DIAMOND POLO, size 4, women, highly visible neon duo-colour orange-yellow

IMPORTANT: XYTAZ® SUPER COMPOUND balls must be put in the water 5 minutes before for use. Within a few minutes there will be a reaction between the water and the XYTAZ® SUPER COMPOUND material which will create an extremely good grip. Before each use the balls must be in the water for 5 minutes.

water polo

aluminium floating water polo goals

Built to FINA & LEN specifications. Sizes: 300 x 90cm. Profile 80 x 40mm. With white enamel finish. Per pair, without nets.

original diamond polo

Our very best goals. The extra large, foam-filled side floats together with an extra wide continuous back float provide extreme stability. Totally new developed goals. Very quick to assemble. Even better stable construction. More durable. Rounded corners help prevent damage to the goal and the edge of the pool. With the new corner fixings there is no bar anymore in the centre; creating more space for the goalkeeper. Side floats and back float are one part only, not connected parts, this prevents the side lines pulling the goal apart.

10980

extra: diamond goal roll away installation

These goals can be easily transported direct to the storage area. No more lifting which reduces the risk of damage.

Additional charge for goals DIAMOND POLO on castors, cost per set.

82412

water polo

aluminium floating water polo goals

Built to FINA & LEN specifications. Sizes: 300 x 90cm. Profile 80 x 40mm. With white enamel finish. Per pair, without nets.

standard

Proven quality at an extremely good price. Can be folded for easy storage. Side floats impregnated with foam and with balance weight for perfect horizontal buoyancy.

floating water polo goals / special sizes

As per "standard" specification adapted for shallow water. These goals are per piece, without nets.

30187 depth 90 -100cm

30188 depth 110 -140cm

aluminium fixed-end water polo goals

Made in accordance with FINA & LEN rules.

Size: 300 x 90cm. Profile: 80 x 40mm, with white enamel finish. Foldable, fully adjustable goals. Per pair, without nets and sockets. Standard for use with 42mm dia. Sockets; can be supplied on special order for 40mm Ø sockets.

10061 STANDARD I 650mm depth

10987 STANDARD II 350mm depth

10974 ENGLISH MODEL 350mm depth,
1 deep and 1 shallow end

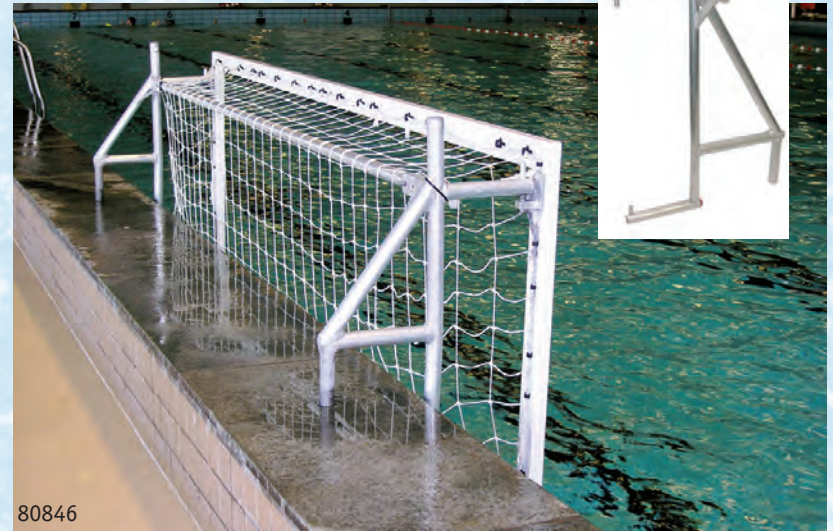

aluminium fixed-end water polo goals, "extra"

Made in accordance with FINA & LEN rules. Size 300 x 90cm. Profile 80 x 40mm. With enamel finish. The back frame is made in one piece and fully welded, this ensures the goals are considerably stronger, stable and durable than the standard goals. Recommended for intense use. The frame bars are attached by clasps, making the goals easier to handle and less prone to damage. Back frame not foldable, but can be taken off for easy storage. Per pair, excluding nets and excluding sockets. The goals will be made to the size you request. Delivery approx. 3 - 5 weeks. The following information is required:

- distance from water level to platform height
- distance from pool edge to centre of socket
- distance from centre socket to centre socket
- inner diameter of socket
- water depth

- t.o.d. clock with calendar and alarm
- size: 90 x 160 x 70mm
- battery powered

82445

water polo scoreboards

Until now the market for water polo scoreboards for the world's leading events has been catered for by just a few brands and the prices have always been "sky-high". EPSAN has developed a special line of "super stadium" scoreboards with the same, proven, reliable techniques but at a highly attractive price level.

super stadium scoreboard RLC-01

- wall-mounted scoreboard
- using the latest generation of LED's in tropicalized CMS quality
- indoor LED's in red, yellow & green
- outdoor LED's in red
- radiographic control of the control unit to the scoreboard
- no loose cables and no electric connection problems
- front made of anti-shock, and anti-reflection polycarbonate
- size: 490 x 150 x 9cm
- with 20 & 16cm high LED numbers
- 20 & 16cm numbers with 3 line version, each line is independently connected; more visible, no total breakdown
- viewing distance 160 metres & from an angle of 160 degrees
- with integrated time out system
- functions:
 - programmable playtime count up or down
 - programmable period, rest period and exclusion times
 - last minute in 1/10 sec.
 - score
 - period
 - exclusion times (3 per team, programmable and legible on control display)
 - time-out indicators (3 per team) with illuminating dots
 - team penalties (3 per team)
 - scoreboard works as clock when not in use. Auto off during night-time
 - automatic, 119 dBa horn with different sounds to distinguish end of period & end of 30 sec. of possession of the ball
- including personal fault indicator
- functions:

- can be easily attached to the walls
- can be used both inside and outside
- size: 65 x 160cm

64010 per piece, 65 x 160 cm

64011 per set of 3, total 195 x 160 cm

biplo watergames

BIPLO; the extremely popular 3 dimensional water games, providing a new dimension to activities and games in the swimming pool, these have proven durability.

technical information

- made from closed cell PE foam
- discs from CL35 foam, other parts from PLASTAZOTE™ foam
- with unbreakable, heavy synthetic connecting rods and closed end caps
- with strong continuous high buoyancy
- cannot be punctured, no inflation required
- skin friendly fine cell material
- easy to clean
- can be disinfected
- firm, anti-slip material

advantages

- connections with solid synthetic axles and not with elastic hooks that can slip and cause injuries
- no double axles, this prevents foam from damage.
- axles are of solid high density, high molecular polyethylene

guarantee

- 2 year guarantee
- all parts available separately

colours

- toned colour combinations may vary
- colours: discs in blue/white/blue, other parts in assorted colour combinations

89049 9,00x4,00m

TIP:

AQUAPARC products for youngsters; please see the pages KIDDY AQUAPARC

IMPORTANT:

products will be supplied in the colour/colour combination as shown, products with a "*" behind the name can be supplied in other colours/colour combinations. On request we will inform you about the price and delivery time

TIP:

all AQUAPARC product scan are available with promotional print. Look for a sponsor for such an attractive object and save on your costs

IMPORTANT:

the AQUAPARC play object has a longer lifetime if you use a storage and transport trolley, these trolleys are completely synthetic including the wheels and will never have a rust problem

super compressor

- electric compressor for fast installation and deflation

80565

vacuum hook

- for solid bottom or wall fixing on smooth tiles
- synthetic material body
- vacuum hook 118mm Ø

82484 double, for large play objects

repair set for AQUAPARC products

- with this set you can close small holes
- glue with piece of material

89076

weight plate

- to anchor the play objects
- 70kg, 80cm Ø

24051

swivel shackles

- avoid "winding up" from fixation ropes
- RVS AISI 316

79091

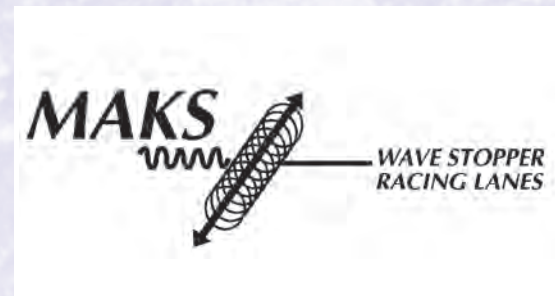

racing swimming lane lines

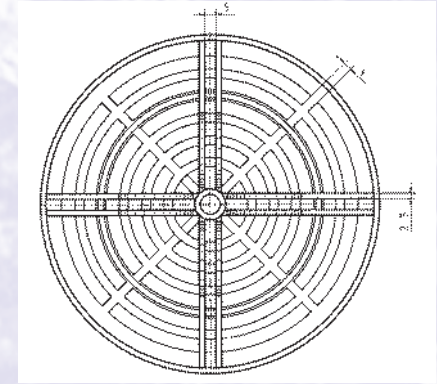

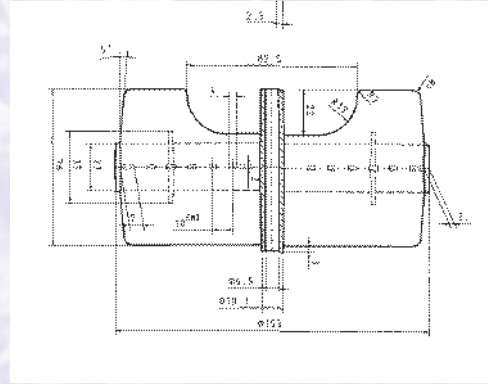

maks wave stopper, 6" / 150mm

The ultimate wave killing 6" racing lane (in accordance with FINA regulations) that we can offer! Selected throughout the world for leading tournaments. Produced with two wave-killing ribs instead of the usual single rib, therefore considerably better wave killing than other lanes. With a unique take-up reel that is 100% safe, does not require any tools for adjustment and takes-up the steel cable instead of rolling it up, thus prolonging it's life. "Micro-donut" system provides buoyancy. Freely rotating wave stopper discs provide optimum wave suppression. A large part of the wave hits the first rib and makes the discs turn which will absorb the energy. A small part hits the second rib, reflects and works as "a brake". Therefore the wave killing effect is 29% better!

racing swimming lane lines

maks wave stopper, 6" / 150mm

Standard colour combinations

- I ends 5m red, with alternating 40cm blue and 40cm white
- II ends 5m red, with alternating 100cm red and 100cm white
- III official FINA colours

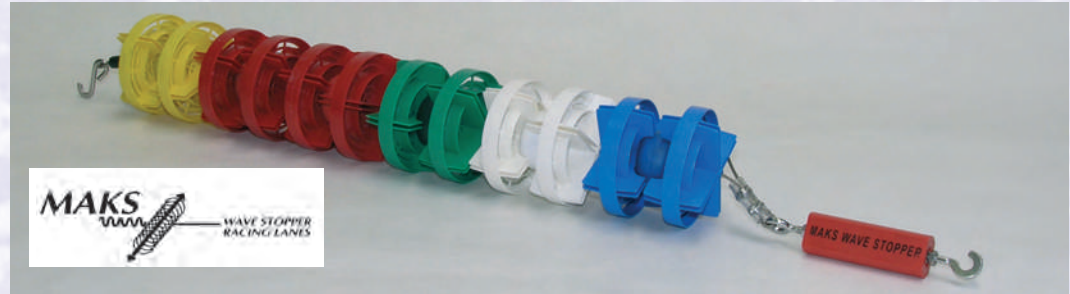

Any desired colour combination available in red, white, blue, yellow or green.

swimming lane line spare parts

"the quick lane line tensioner®"

- allows you to put your lanes into the pool quickly and easily
- the lane will self-tensioning within seconds
- can be used with any training line on rope or on steel cable
- the special spring is safely inside a synthetic tube
- take the tube in your hand, stretch the spring, hook the s-hook into the wall anchor and release the tube; the lane will tension automatically
- a revolutionary, patented EPSAN product

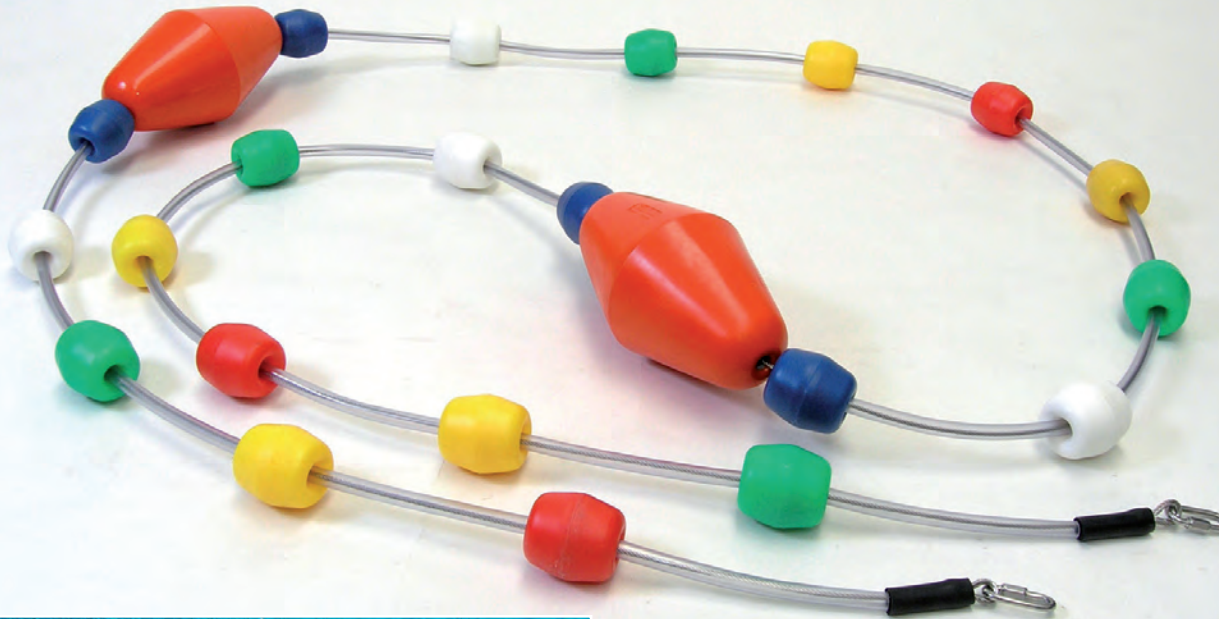

79064

"the line protector"

- place the unit on the side of the pool
- putting the lanes in the pool and taking them out will be much faster and requires less energy
- advantage: no damage to the pool deck
- advantage: no hooking from the lanes on the poolside
- advantage: your lanes will last much longer

79065

separation swimming lanes

monaco separation lanes

Dividing lane, especially suitable for use in open water. Excellent visibility and higher buoyancy due to large floats. With 4 hostalene floats (70 x 65mm) and 4 spacers per metre. You can have the quantity of monaco floats (300 x 170mm) to your requirement. We recommend 1 monaco float per 5 metre. Steel cable in V4 quality (7 x 7) and both sides finished with pressed loop. The maximum length is 50 metre. With closable locks these lanes can be coupled to the required lengths but can also be attached to the sides or posts or pontoons.

- 62280** line per metre (excluding pressed loops & excluding monaco floats)
- 62281** end-fixings (the pressed loops) for both sides
- 30707** monaco float, per piece (recommendation: 1 per 5 metre)
- 22372** closable lock, per piece

swimming lane line spare parts

coupling

Unique, quick, coupling system for lane lines. Suitable for racing and training lane lines. Stainless steel end stops will be connected with a coupling plate made from H.D.H.M. polyethylene without the need of any tools. Set is 2 end stops and 1 coupling plate.

87004 type 2, size 242 x 127cm (lxw), holds up to 125m 6" racing lane lines, 250m 4" racing lane lines or 500m training lane lines

68059 type 3, size 195 x 127cm (lxw), holds up to 150m 4" racing lane lines or 300m training lane lines

68060 type 4, size 288 x 127cm (lxw), holds up to 150m 6" racing lane lines, 300m 4" racing lane lines or 600m training lane lines

ALL DIMENSIONS IN MM ±4MM

swim line storage reels

"basic" storage trolley

- made of aluminium with natural blank surface and with aluminium spindle
- "wheel barrow" design with two wheels
- size: 140 x 135 x 139cm (lwxhx)
- holds up to 100m of racing lane line (4") or 200m training lane line
- closed side wheels prevent damage to the lane lines
- delivered unassembled

80092

"mini" storage trolley

- made of aluminium with natural blank surface and with aluminium spindle
- "wheel barrow" design with two wheels
- size: 80 x 140 x 135cm (lwxhx)
- holds up to 50m of racing lane line (4") or 100m training lane line (except type RLC)
- closed side wheels prevent damage to the lane lines
- delivered unassembled

69051

aluminium reel

- new design with double storage capacity
- solid reel, approx. 98cm dia.
- holds 25m racing lane line (4") or 50m of training lane line
- delivered unassembled

10609

aluminium storage trolley

- solid trolley with synthetic wheels
- for use with reel art. 10609
- delivered unassembled

10610

swimming lane storage bag

- for storage in the cellar
- holds up to 1500kg
- 50m 4"/100mm or 25m 6"/150mm racing lane line or 100m training line
- with 4 eyes for fixing

65204

starting blocks

87007

starting blocks for club & training use

- mirror polished stainless steel in AISI 316-L quality according EN 1.4404
- with non-slip G.R.P. platform in white, 50 x 50cm
- with numbers on 2 sides
- with horizontal backstroke bar
- excluding floor anchors and bolts
- BS EN 13451-4:2001

87008/87009

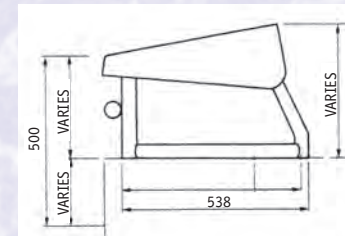

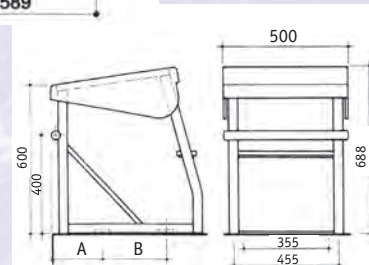

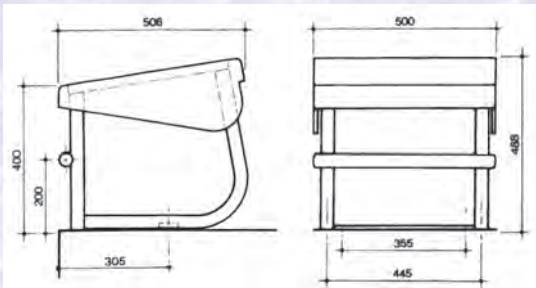

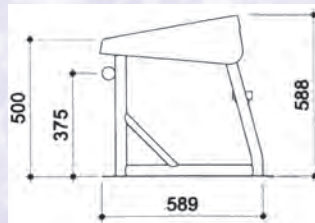

87010

87007 front topside 400mm above floor, 2 floor anchors required

87008 front topside 600mm above floor, 3 floor anchors required

87009 front topside 500mm above floor, 2 floor anchors required

87010 front topside 500mm above water, 2 floor anchors required, please specify height when ordering

starting blocks

starting blocks for club & training use type budapest-competition

- matt silver steel in AISI 316-L quality according EN 1.4404
- with non-slip G.R.P. platform in blue, 50 x 50cm
- with numbers on 4 sides
- with horizontal and vertical backstroke bar
- excluding floor anchors and bolts
- BS EN 13451-4:2001

87042 front topside 400mm above floor,
4 floor anchors required

ideal starting block storage & transport trolley

- size 130 x 60 x 140cm (lxdxh)
- for 6 starting blocks (maximum height 40cm)
- with 4 castors (2 with brake)
- delivered unassembled
- on special request also available in other sizes

82433

starting block fixing set

- set with 1 ground anchors, 1 chemical anchor and 1 bolts
- for fast placement of starting blocks and fast (temporary) removal
- per set

87044

starting block deck

- replacement loose deck

82370

Cheltenham

starting blocks

87043

starting blocks for competition use type helsinki-competition

- special deck level overflow model
- matt silver steel in AISI 316-L quality according EN 1.4404
- with non-slip G.R.P. platform in blue, 50 x 50cm
- with numbers on 4 sides
- with horizontal and vertical backstroke bar
- excluding floor anchors and bolts
- BS EN 13451-4:2001

87043 front topside 700mm above floor,
4 floor anchors required

starting blocks for competition use type omega osb-11

- glass fibre starting block
- with adjustable foot rest
- with non-slip G.R.P. platform in blue, 74 x 52cm
- with numbers on 4 sides
- with horizontal and vertical backstroke bar
- including floor anchors and bolts

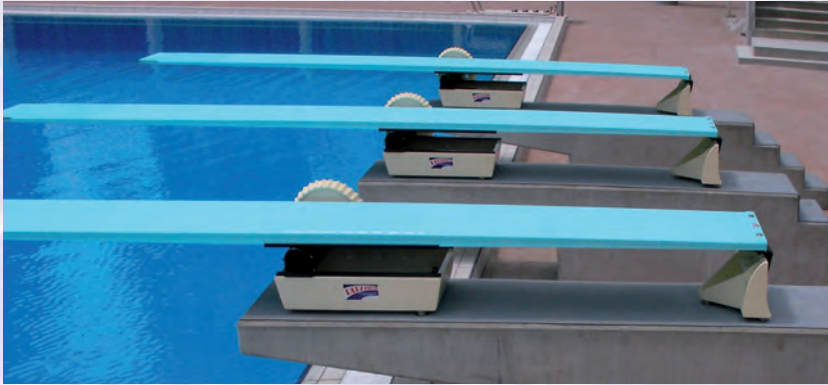

88019.1 without relay break detection

88019.2 with relay break detection if connected
when connected to ARES 21

DURAFLEX / MAXIFLEX springboards & accessories

springboards maxiflex

- the no.1 springboard for competition use
- aluminium construction with strengthening
- width 50cm, length 488cm

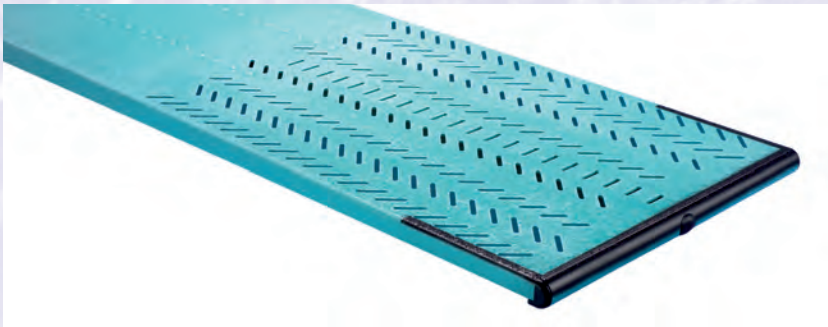

30270 type MAXIFLEX "B", competition board with perforation for extra flexibility

springboards duraflex

- the springboard for top level training and daily use
- aluminium construction with strengthening
- width 50cm

30268.14 type DURAFLEX, 14ft, 427cm

30268 type DURAFLEX, 16ft, 488cm

accessories duraflex / maxiflex

30271 substructure DURAFIRM, complete excluding the ground anchors

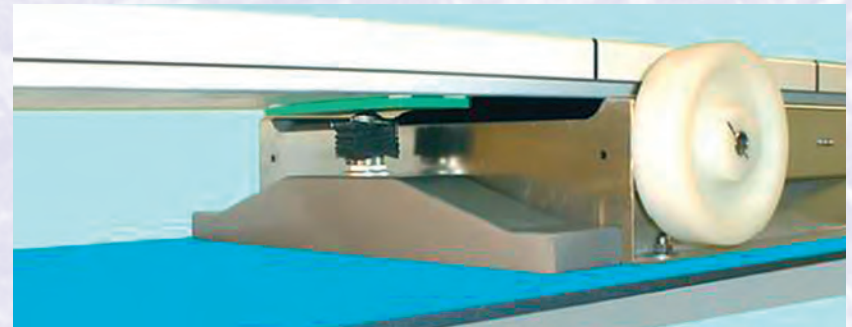

80815 fixing-set for DURAFIRM, 6 ground anchors

36006 fixing-set for diving platform, 8 per set

sound proofing

- reduces the noise of the springboard by almost 90%
- can be added to most existing installations

80295 for DURAFLEX & MAXIFLEX boards

springboards & accessories

diving platform duraflex / maxiflex

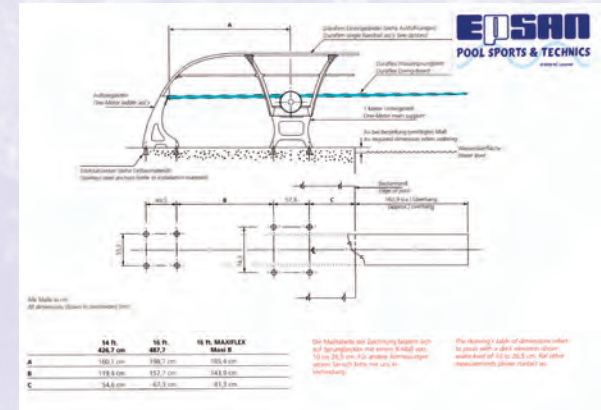

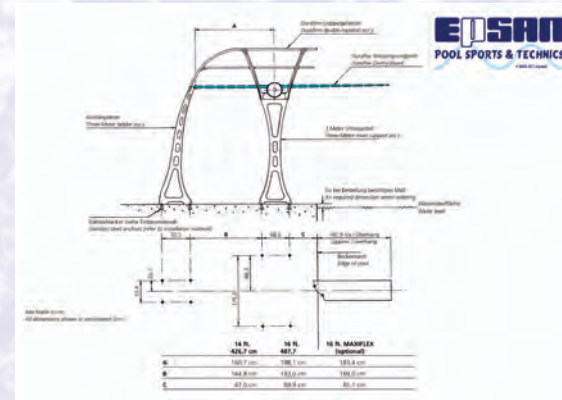

- complete, excluding springboard
- including substructure, excluding fixing-set

20137 3 metre platform with 2 hand rails on both sides

20138 1 metre platform with 2 hand rails on both sides

20140 1 metre platform with 1 hand rail on one side

20141 1 metre platform without hand rails

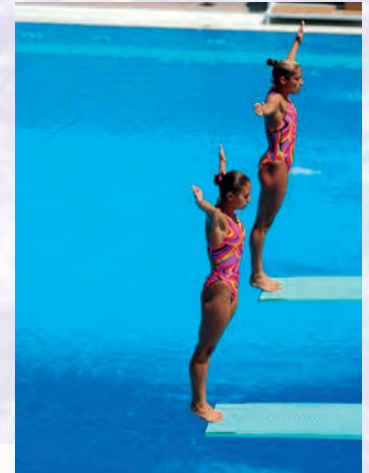

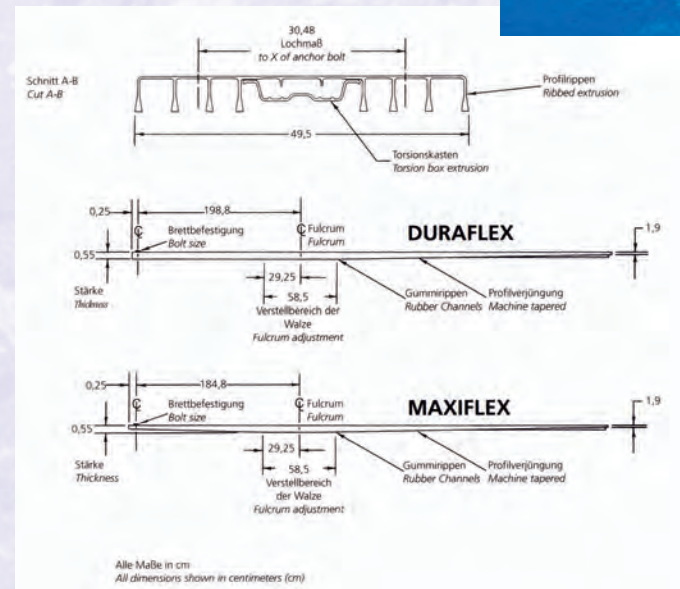

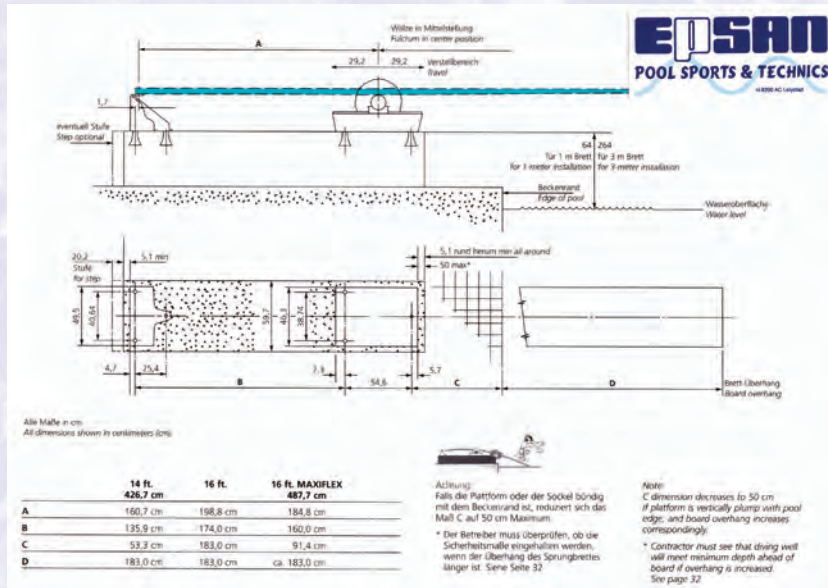

parts

- all parts for DURAFLEX, MAXIFLEX en DURAFIRM are available separately

safety

- springboards must be tested frequently for safety reasons
- we can control your installations

springboards & accessories

EPSAN springboards & accessories

movable springboard

- can be used free standing
- 200 litre water tank as contra weight
- total length 280cm
- height ca. 60cm
- width 50cm
- including transport rolls
- recommended water depth 3m

80293

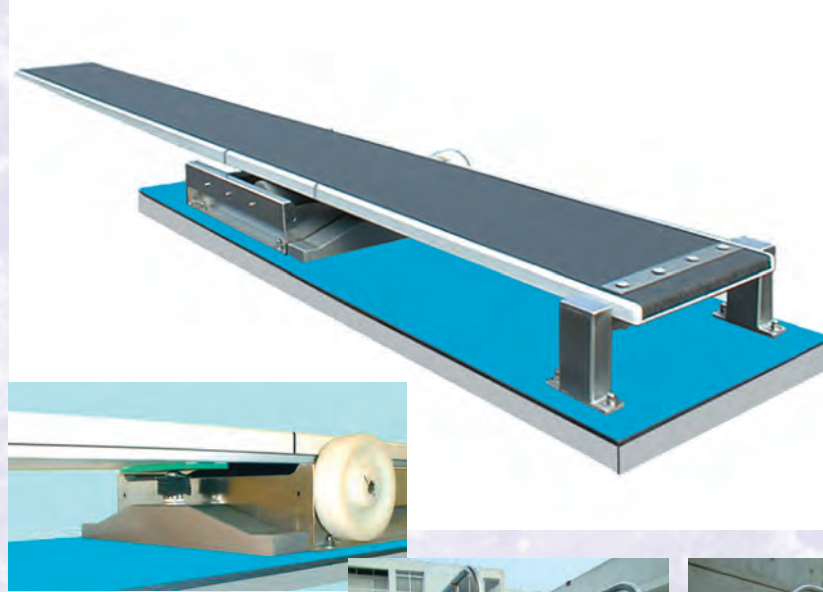

accessories epsan

- 30228** adjustable roller nest in VA stainless steel
- 30229** back fixing in VA stainless steel
- 30232** rubber supporting roll with stainless steel axle, replacement

sound proofing

- reduces the noise of the springboard by almost 90%
- can be added to most existing boards

80294 for EPSAN boards

springboards epsan

- the springboard for intensive commercial use
- made of 100% synthetic material with glass fibre strengthening
- not combined with other materials, preventing the usual problems caused by mixing different materials
- anti-slip covering
- width 50cm
- including assembly manual

10783 480cm

10784 450cm

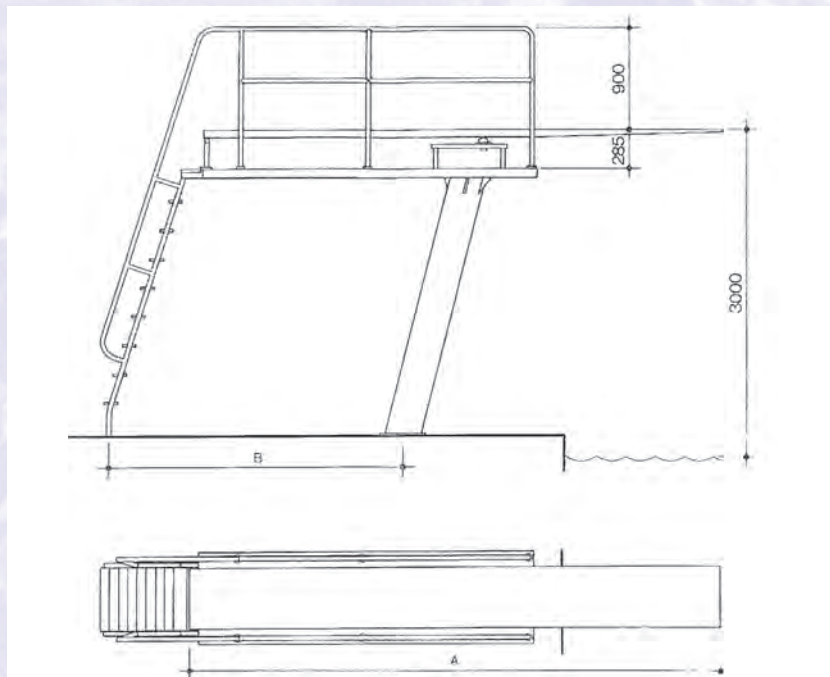

10785 400cm

10786 350cm

Nicosia - Cyprus

EPSAN springboards & accessories

diving platform epsan 3 metre

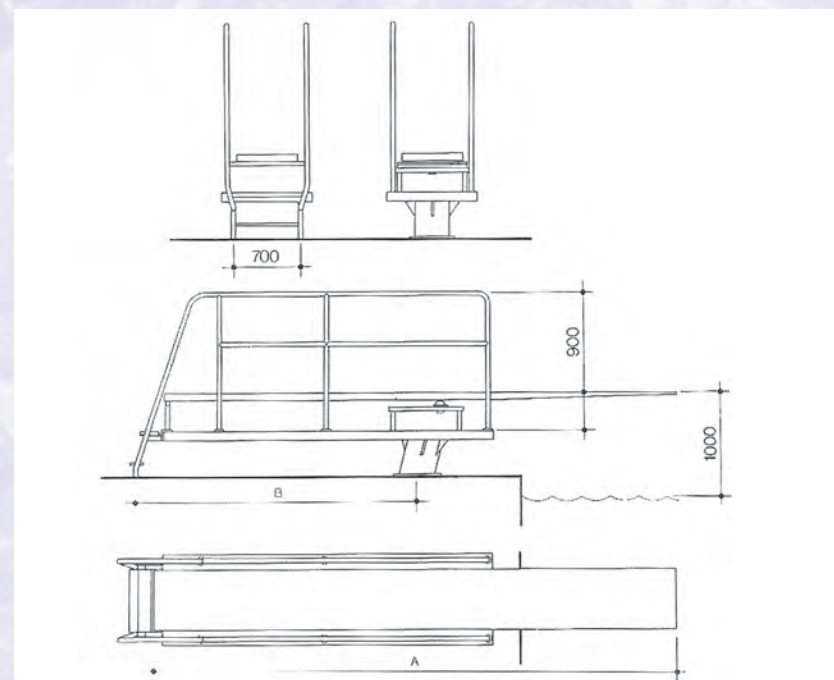

- 300mm Ø mild steel galvanised tube and angle frame
- ladder and handrail in mirror polished stainless steel in AISI 316-L quality according EN 1.4404 in 50mm Ø
- standard version or made to your requirements
- complete with substructure, fulcrum, sockets and fixing material
- synthetic treads
- adjustable roll, can be moved by hand and feet
- excluding springboard

68061 3 metre

diving platform 1 metre

- 300mm Ø mild steel galvanised tube and angle frame
- ladder and handrail in mirror polished stainless steel in AISI 316-L quality according EN 1.4404 in 38mm Ø
- standard version or made to your requirements
- complete with substructure, fulcrum, sockets and fixing material
- synthetic treads
- adjustable roll, can be moved by hand and feet
- excluding springboard
- length ca 370cm, width ca 75cm, height ca 175cm

68062 1 metre

"aquasport v" timing system

Our "AQUASPORT" timing systems comply with the FINA & LEN specifications. Designed with electronic LED digital displays. All systems are "tropicalized" and are moisture resistant.

aquasport swim timing system for 8 lanes

Consists of:

- operation system (lap top, printer, aqua swim software & electronic interface up to 1 / 1000 sec. operating)
- connection modular (8 connection units with start units; connectable to the lap top, starting system & the touch pads; also to the non standard false start pads)
- start system (set for 8 lanes with 8 loud speakers)
- touch pads (8 touch pads 244 x 90 x 1cm complete with stainless steel brackets)
- excluding display boards; see the chapter for display boards

62295

extras

- electronic false start pads with connecting straps to attach to starting blocks (can be also directly screwed on the starting block), per piece

81115

- software for water polo installed in aqua sport timing system with time, score, penalties, time out & period (personal fault indicators & 30 sec. clocks not included) (for 30 sec. clocks see the chapter for water polo score boards)

62296

- personal fault indicators for water polo for 2 x 13 players

82435.1

82435.2

- software for diving with point registration with 14 operation consoles for the jury

70043

- software for synchronized swimming with point registration with 14 operation consoles for the jury

70044

- software for diving & synchro swimming combined

62297

- storage trolley for 8 touch pads

70041

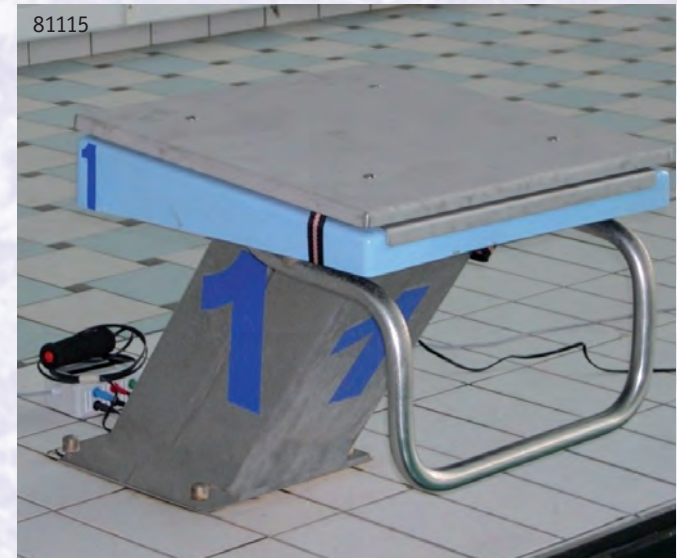

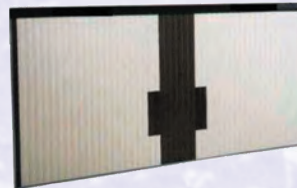

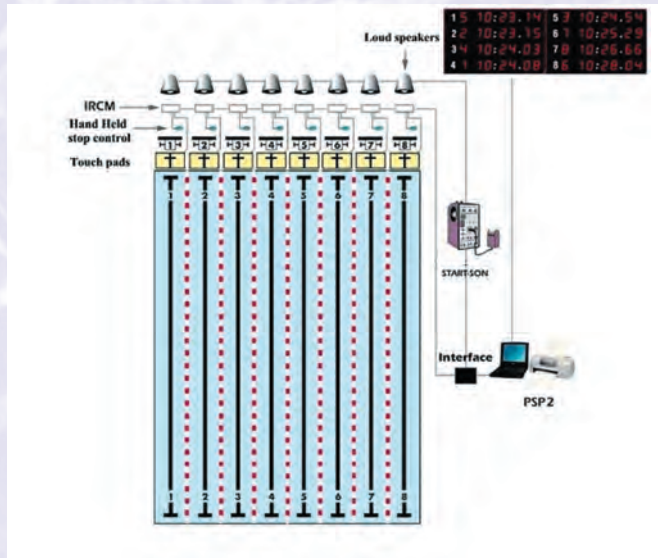

Swim timing systems for fewer lanes on request.

"aquasport v" timing system

important information

- all parameters can be filled in before, and may be recalled during a tournament when required
- results will be printed on A4 format, allowing easy copying
- 40 watt loud speakers with adjustable volume
- the microphone from the starter has a button to sound the start & false start signal
- start is visible through a stroboscopic light signal (360 degrees)
- facility for a second microphone (not included)
- may not be connected to starting pistols
- function approx 8 battery time
- each connection module is a separate electronic unit; the system recognises each module individually, which allows the computer to register the results promptly
- the touch pads are extremely sensitive but are not sensitive to water turbulence
- the touch pads have an anti-slip front, which makes turning easy and is comfortable to the touch

display boards

On the display boards we give a full 10 year guarantee on the LED displays, and 3 years on all electronic parts. Electronic LED digital displays. All systems are "tropicalized" and moisture resistant.

display boards / line result display per lane

- designed with the latest generation of LED
- with 8 numerals
- each lane indicates:
 - 6 positions for the timer (minutes, seconds & 1/10 seconds and after stopping 1/100 seconds)
 - 1 position to indicate the number of the lane
 - 1 position to indicate the finish sequence
- available for 5 up to 10 lanes, display is single line
- 9cm high numerals, visible up to 35 metres
- polycarbonate front: anti-shock and anti-reflection

70021 100 x 22 x 9cm, indoor

70023 100 x 22 x 9cm, outdoor

display boards / multi line result display

- designed with the latest generation of LED
- with 8 numerals
- each lane indicates:
 - 6 positions for the timer (minutes, seconds & 1/10 seconds and after stopping 1/100 seconds)
 - 1 position to indicate the number of the lane
 - 1 position to indicate the finish sequence
- available for 5 up to 10 lanes
- display is double lined
- digits 16cm high
- visible up to 85 metres
- polycarbonate front: anti shock and anti-reflection

70032 2 modules, each 190 x 120 x 9cm / together 380 x 120 x 9cm, indoor

70040 2 modules, each 190 x 120 x 9cm / together 380 x 120 x 9cm, outdoor

These display boards can be connected to our "AQUASPORT" timing equipment and to our "EPSAN" timing equipment.

Display boards multi lane for more or less lanes on request.

display boards

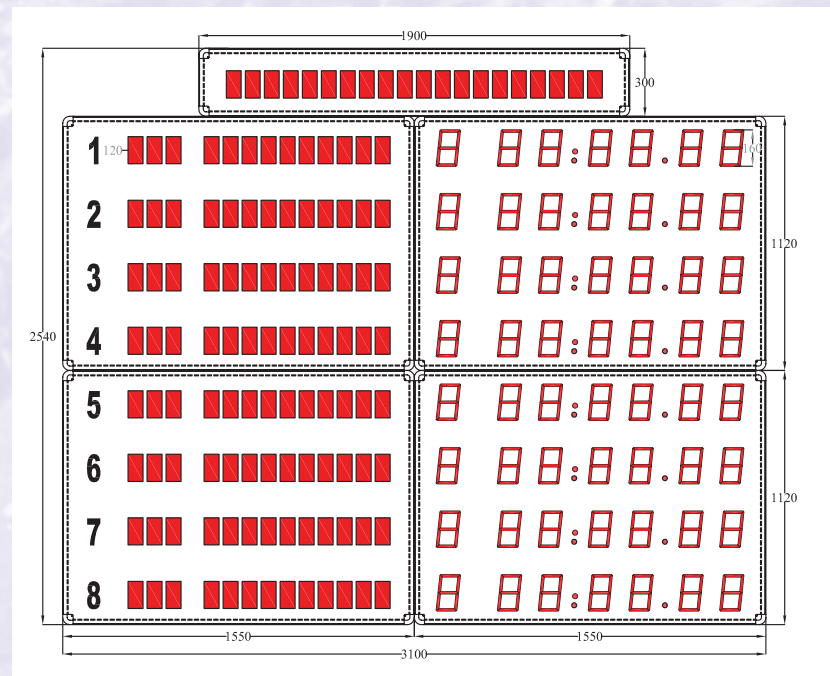

display boards / international multi line result display

- designed with the latest generation of LED
- with 20 digits (12 cm) for the name of the event
- with 3 digits (12 cm) for the country code
- with 9 digits (12 cm) for the name of the swimmer
- with 1 digits (16 cm) for the finishing position
- with 6 digits (16 cm) for the time (minutes, seconds & 1/10 seconds and after finishing 1/100 seconds)
- available for 5 up to 10 lanes
- display is double lined
- visible up to 85 metres
- polycarbonate front: anti shock and anti-reflection
- for 8 lanes

82446 5 modules / together 310 x 254 x 9cm, indoor

82447 5 modules / together 310 x 254 x 9cm, outdoor

competition accessories

backstroke turning point installation

- set of 4 anodised aluminium posts with fixing eyes
- length 190cm (180cm above socket).
- excluding line and sockets
- per set

10793.42 40mm Ø for sockets of 42mm Ø

FINA regulation dressed line

- band with 2 coloured synthetic material flags (200 x 400mm) per metre
- price per length of 10m
- available in blue/white or red/white

67016

false start installation

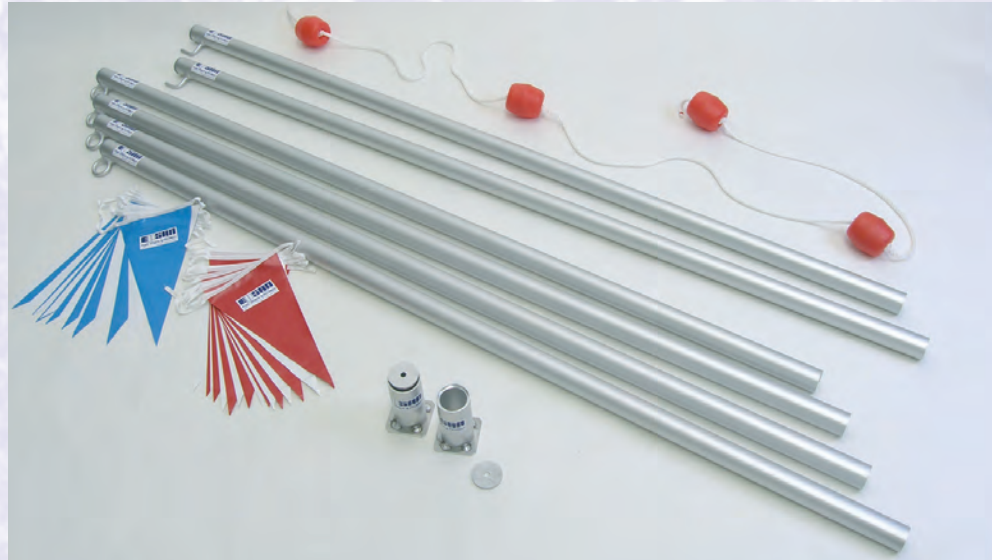

- set of 2 anodised aluminium posts with fixing eye on one post and quick control on the other post
- length 160cm (150cm above socket)
- excluding line and sockets.
- per set

10795.42 40mm Ø for sockets of 42mm Ø

false start rope

- betelon line (6mm) with one float per metre
- complete with snap hook and fitting cord
- price per metre

10796

sockets

- for above installations
- including lid
- price for set of 2 pieces

10797.42 42mm Ø for posts of 40mm Ø

lap counter

- made from synthetic material with synthetic hinges
- with carrying handle
- large 31.5cm numbers

30688

competition accessories

backstroke turning point installation

- set of 4 posts with fixing eyes
- mirror polished stainless steel in AISI 316-L quality according EN 1.4404, 38mm Ø
- length 195cm (185cm above socket)
- excluding lid, line and sockets

• per set

87014

false start installation

- set of 2 posts with fixing eyes
- mirror polished stainless steel in AISI 316-L quality according EN 1.4404, 38mm Ø
- length 165cm (155cm above socket)
- excluding lid, line and sockets

• per set

87015

sockets

- for above stainless steel installations
- excluding lid
- price per piece

67000

drop in cover

- for sockets 67000
- very fast “put-in” and “take-out”
- will not get lost easily due to size
- price per piece

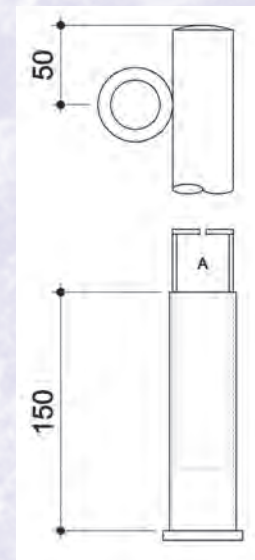

67001

NEW

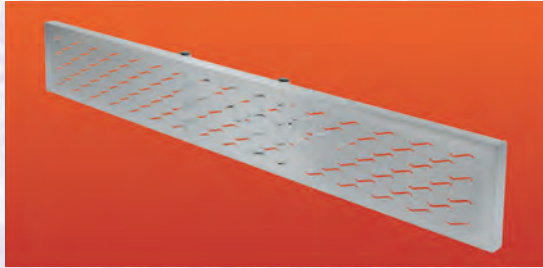

FINA regulation dressed line

- band with 2 coloured synthetic material flags (200 x 400mm) per metre
- price per length of 10m
- available in blue/white or red/white

67016

turning boards & winners rostrum

turning boards for deck level overflow pools

- stainless steel in AISI 316-L quality according EN 1.4404
- perforated onto stainless steel tubular frame
- height 300mm
- thickness 50mm
- excluding fixing
- BS EN 13451-2: 2001

87011 180cm wide

87012 240cm wide

turning board fixing set I

- stainless steel frame that will be mounted on the middle of the turning board
- will be grouted in pool surround with 2 holdfast fixings and bolts (included in the delivery)

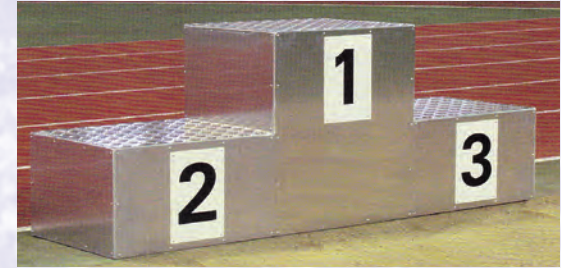

87013 per piece

turning board fixing set II

- stainless steel brackets that will be mounted on the sides of the turning board
- complete with pinched sockets in which the brackets can be fixed
- complete with cover plates

87041 per pair

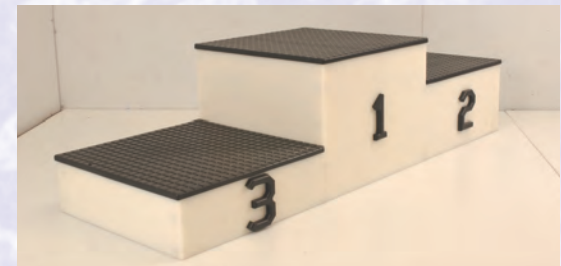

winners rostrum

- made from heavy, unbreakable high density and high molecular polyethylene
- comes in 3 parts for easy storage
- size.: 137cm wide, 49cm deep and maximum height 39cm

79024

- also available in aluminium 1-piece unit

aluminium equipment trolleys

10578

super giant equipment trolley

- size: 150 x 147 x 62cm (wxhxd)
- extra heavy-duty aluminium profile with thick aluminium mesh sides and sliding doors
- open compartment on the top
- fitted with 2 fixed wheels and 2 castors (1 with brake)
- can be locked (lock not included)
- the shelf height can be adjusted to many positions

10578

82308

super large equipment trolley

- size: 125 x 125 x 62cm (wxhxd)
- extra heavy-duty aluminium profile with thick aluminium mesh sides and sliding doors
- fitted with 2 fixed wheels and 2 castors (1 with brake)
- can be locked (lock not included)
- the shelf height can be adjusted to many positions

82308

aluminium equipment trolleys

20114

basic equipment trolley

- size: 172 x 140 x 72cm (wxhxd)
- extra heavy aluminium profile with rail and hooks
- 4 plastic open worked baskets (60 x 32 x 40cm) included
- baskets can be removed for use elsewhere
- fitted with 2 fixed wheels and 2 castors (1 with brake)

20114

water polo ball storage trolley

- holds 15 balls
- from extremely durable aluminium
- can be locked (lock not included)

64005

64005

20103

easy equipment & ball trolley

- size: 100 x 95 x 65cm (wxhxd)
- extra heavy-duty aluminium profile with aluminium mesh sides
- full size opening lid

- fitted with 4 castors
- can be locked (lock not included)

20103

10303

standard equipment & ball trolley

- size: 90 x 80 x 70cm (wxhxd)
- extra heavy-duty aluminium profile, barred design
- half opening lid
- fitted with 4 castors
- can be locked (lock not included)

10303

IMPORTANT

- height measurement includes wheels
- delivered unassembled to reduce freight costs

synthetic equipment trolleys

EPSAN introduces a whole range of entirely synthetic IDEAL equipment trolleys. All profiles, all connections, all fixings and all wheels are made from synthetic materials. No more rust problems or oxidation, and can be easily cleaned using high-pressure hoses. The trolleys are more user-friendly and warmer to the touch than metal. Air can circulate freely this prevents mould. Profile 55 x 50mm. Assembling (where needed) takes a few minutes, without any tools. EPSAN trolleys have wheels with metal parts.

ideal giant equipment trolley

- size 138 x 82 x 205cm (lxdxh)
- fitted with 4 castors (2 with brake)
- 3 shelves
- space for 9 plastic baskets 20102 or 22524 (not included)
- every compartment includes a door and lock
- delivered assembled

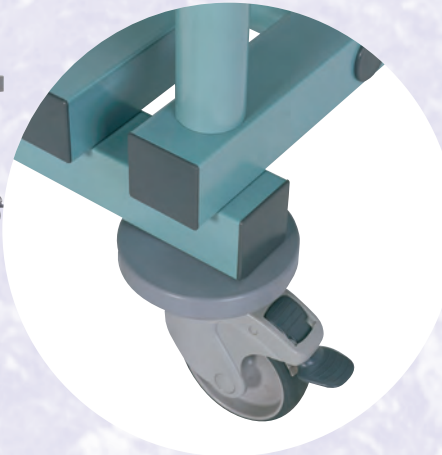

82418

ideal large equipment trolley

- size 125 x 82 x 205cm (lxdxh)
- fitted with 4 castors (2 with brake)
- 2 shelves plus top storage
- space for 4 plastic baskets plus 2 on the top 20102 or 22524 (not included)
- every compartment includes 2 doors and lock
- delivered assembled

82431

ideal super equipment trolley

- size 138 x 60 x 172cm (lxdxh)
- fitted with 4 castors (2 with brake)
- space for 6 baskets (not included)
- complete with 30 hooks for swim belts etc
- delivered assembled

80612

synthetic equipment trolleys

ideal plus equipment trolley

- size 138 x 60 x 177cm (lxdxh)
- fitted with 4 castors (2 with brake)
- space for 9 plastic baskets (not included)
- delivered assembled

80611

ideal extra equipment trolley

- size 120 x 70 x 94 cm (lxdxh)
 - fitted with 4 castors (2 with brake)
 - for storage of small equipment
 - delivered assembled
 - open design without lid
- 82432** profile bottom for quick drying
82432.cb closed bottom for small equipment

ideal ball trolley

- size 120 x 70 x 90cm (lxdxh)
 - fitted with 4 castors (2 with brake)
 - delivered assembled
- 80609** open design without lid
80610 closed design with lid (lock not included)
82419 additional price for lock on 80610

synthetic equipment trolleys

3 baskets trolley

- size 54 x 66 x 180 cm (lxdxh)
- fitted with 4 castors (2 with brake)
- space for 3 baskets 60 x 32 x 40 cm (lxdxh) art.20102
- baskets not included

24036

equipment and ball trolley ideal Alphen

- space for up to 60 inflated balls
- size 138 x 92 x 130 cm (lxdxh)
- fitted with 4 castors (2 with brake)
- lockable including padlock
- lid tip-up and front (partly) fold out
- products on bottom can be taken out without deep bending

65205

synthetic equipment trolleys

ideal aqua dumbbell & belt storage trolley

- size 150 x 75 x 85cm (lxdxh)
- synthetic material profiles 55 x 50mm
- with 4 castors (without brake)
- with taurinyl cloth inner
- delivered unassembled

80859

ideal aqua-step storage & transport trolley

- size 150 x 75 x 100cm (lxdxh)
- for 9 aqua-steps
- with 4 castors (2 with brake)
- delivered unassembled
- on special request also available in other sizes

82426

ideal handy trolley

- size 138 x 60 x 105cm (lxdxh)
- fitted with 4 castors (2 with brake)
- with row of pegs
- perfect for swim belts
- delivered assembled

82420

ideal aqua-dumbbell storage trolley

- size 140 x 40 x 125cm (lxdxh)
- for 50 pair of 155mm Ø dumbbells
- with 4 castors (2 with brake)
- delivered assembled

62269

synthetic equipment trolleys

ideal starting block storage & transport trolley

- size 130 x 60 x 140cm (lxdxh)
 - for 6 starting blocks (maximum height 40cm)
 - with 4 castors (2 with brake)
 - delivered unassembled
 - on special request also available in other sizes
- 82433**

IMPORTANT

- height measurement includes wheels

epsan flexibeam storage trolley

- mobile synthetic basket for up to 40 flexibeams
 - solid synthetic material
 - open design allows water to drain easily
 - with castors (metal)
 - delivered assembled
- 80650** 60 x 106 x 40cm (wxhxd)
82414 60 x 138 x 40cm (wxhxd)

epsan roll away baskets

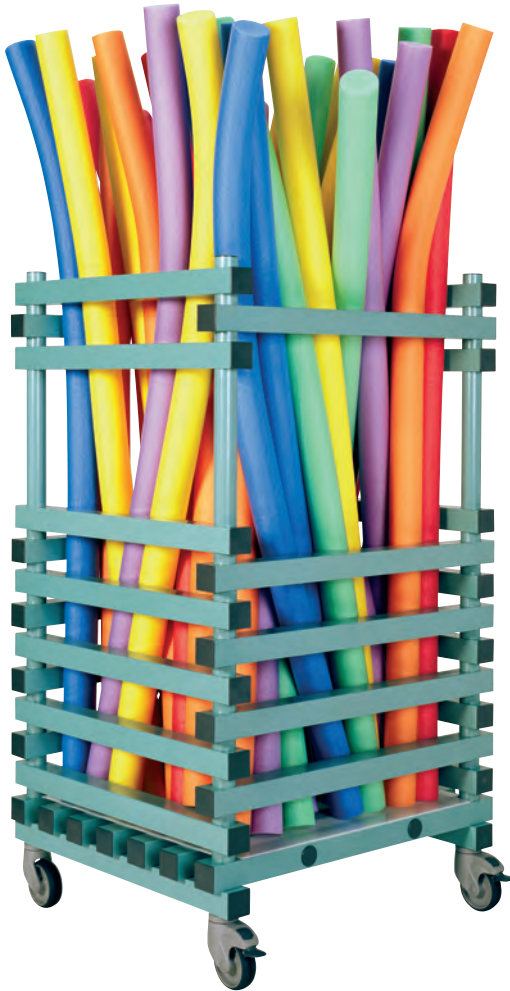

- synthetic basket with open worked sides and bottom
- water will drain easily
- ventilation on each side allows quick-drying
- with 4 castors (metal)
- delivered assembled

80877 60 x 42 x 40cm (wxhxd)

80878 60 x 74 x 40cm (wxhxd)

synthetic equipment trolleys

ideal flexibeam storage trolley

- mobile synthetic trolley for up to 70 flexibeams
 - vertical storage
 - with 4 castors (2 with brake)
 - size: 80 x 70 x 135cm (lwxhx)
- 79066**

flexibeam carry belt

- adjustable with quick-lock buckles
 - for 20 flexibeams
- 65202**

ideal flexibeam storage trolley

- mobile synthetic trolley for up to 65 flexibeams
 - horizontal storage
 - due to horizontal storage the flexibeams stay "straight"
 - with 6 castors (2 with brake)
 - closed design with lid and lock
 - size: 186 x 70 x 90cm (lwxhx)
- 79067**

synthetic equipment trolleys

synthetic storage container

- size 120 x 100 x 90cm
- for bulk storage
- for racing lanes (50m 4" / 100mm Ø racing lane)
- sides and bottom closed
- stackable

82416

62285 cover for storage trolley

plastic baskets

- with handles and slots on all sides & bottom
- stackable
- for efficient drying of material

20102 size: 60 x 32 x 40cm (wxhxd)

artificial plants

important information; we recommend:

- shallow pots, they are less likely to be knocked over
- spread plants around to enhance the appearance of your area, but don't have them too close to the ceiling
- use one type of pot in one colour
- made from high quality material making them look realistic, you have to touch them to know they are not real
- not susceptible to pests and diseases
- long lasting even in a pool environment

care

- simply remove the dust with a small brush
- use diluted detergent spray directly onto a dry cloth to remove heavily soiled areas
- rearrange the leaves to the desired display

fire retardant

- fire resistant
- the main reason for using artificial plants indoor

UV protection

- suitable for indoor and outdoor use
- will not fade in direct sunlight

pots EPSAN DELUXE

- synthetic
- 10 years UV protected
- for indoor and outdoor use
- virtually unbreakable
- eco-friendly

water testers Lovibond®

All water testers are available in English, German, French, Italian and Spanish language. The PoolDirect 9in1 is available in Danish, Finnish, Dutch, Norwegian, Polish, Russian and Swedish language

All water testers are waterproof and have a real time clock and date.

Lovibond® PoolDirect 9in1

The photometer 9in1 was focused for the Mediterranean and Anglo-American markets developed in consideration of the most popular treatment methods for pools. The nine programmed tests (M-alkalinity, bromine, calcium hardness, chlorine, copper ozone, pH value, stabilizer, cyanuric acid and water balance) are accessed directly by pressing a button. A fashion feature is the water treatment (Water Balance System) calculates the imputed elements of the formula for you. The storage capacity is up to 1000 data sets that can be saved as an Excel sheet or txt file. The large display gives the user a step by step procedure. The operation device is networked -independent with 7 rechargeable batteries or AC adapter, and includes automatic close down after 20 minutes with no loss of data.
63800

Lovibond® MD100 6in1

The measurement is performed at the MD100 with high-quality interference filters and long-term stable LED's as light source with no moving parts, transparent in a sample chamber. Standard with chlorine, pH value, stabilizer, cyanuric acid, M-alkalinity, calcium hardness and bromine test options. Accurate reproducible results are achieved in a short time. Infrared interface for data transfer (with the separately available module IriM)

Memory function holds the last 16 records after switching off the one-zero OTZ one-time zero. In addition, includes ease of operation ergonomic design, compact dimensions and safe handling. The analyzes are carried out alternatively using Lovibond® tablet reagents with long-term stability and guaranteed minimum shelf life of 5 to 10 years or with liquid reagents. Supplied with batteries for up to 5000 measurements with automatic close down.

63823

Lovibond® MD100 4in1

Identical to the 6in1 but without the calcium hardness and bromine tests.

63801

Pool Direct 9in1 will be replaced by model PM600-620 in early 2013

water testers Lovibond®

Lovibond® MD200 6in1

Adapted to today's technical requirements, the MD200 photometer is used in most areas for water analysis. Standard with chlorine, pH value, stabilizer, cyanuric acid, M-alkalinity, calcium hardness and bromine test options. In the high precision optical interference filters high quality long term stable LED's are used as a light source. Accurate reproducible results are achieved in a short time. Infrared interface for data transfer (with the separate available module IRiM). Memory function holds the 16 records after switching of the one-zero OTZ one-time zero. The devices are characterised by ease of use, ergonomic design, compact dimensions and safe handling. All analyzes are conducted using Lovibond® tablet reagents with long-term stability and guaranteed minimum shelf life of 5 to 10 years or with liquid reagents. Supplied with batteries for up to 15000 measurements with automatic close down.

63824

Lovibond® MD200 4in1

Identical to the 6in1 but without the calcium hardness and bromine tests.

63802

telescope pole

- made of aluminium
- adjustable from 240cm to 480cm
- with catch clasp

20168

scoop net

20169.1 thermoplastic frame, flat design net

20169.2 aluminium frame, deep design net

swimming pool brush

- PVC brush, 44 cm wide
- with up bended sides

20167

parts

- accessories and spare parts on request

ladders

access ladder type ERM-01

- standard ladder
- mirror polished stainless steel in AISI 316-L quality according EN 1.4404
- stainless steel anti-slip treads
- available in removable version (including pinch sockets with cover plates and synthetic end caps)
- available in fixed mounted version (including collared flanges and fixing material)
- choose from asymmetric handle bends or parallel handle bends
- choose from handle bends with same height or unequal height (prevent misuse i.e. anti-swing)
- width 495mm
- top tread 495 x 230mm
- other treads 495 x 115mm
- delivered unassembled; attractive delivery cost
- BS EN 13451-2:2001

87016.38R 2 treads, 783mm, 38mm Ø, removable

87016.38M 2 treads, 783mm, 38mm Ø, fixed mounted

87020.50M 6 treads, 1903mm, 50mm Ø, fixed mounted

ladders

access ladder type ERM-02

- undercover access ladder
- mirror polished stainless steel in AISI 316-L quality according EN 1.4404
- stainless steel anti-slip treads
- available with removable handrails (including pinch sockets with cover plates)
- available in fixed mounted version (including collared flanges and fixing material)
- choose from asymmetric handle bends or parallel handle bends
- choose from handle bends with same height or unequal height (prevent misuse i.e. anti-swing)
- ladder with welded collared flanges and including fixing material
- width 495mm
- top tread 495 x 230mm
- other treads 495 x 115mm
- delivered unassembled; attractive delivery cost
- BS EN 13451-2:2001

87021.38R 2 treads, 783mm, 38mm Ø, removable

87021.38M 2 treads, 783mm, 38mm Ø, fixed mounted

87022.38R 3 treads, 1063mm, 38mm Ø, removable

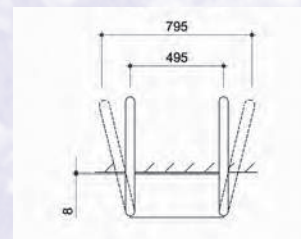

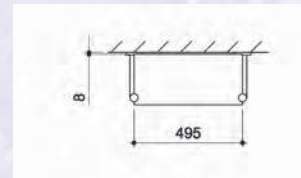

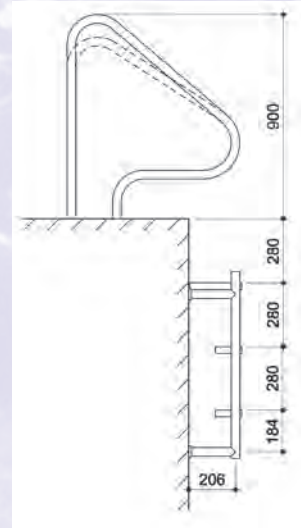

87022.38M 3 treads, 1063mm, 38mm Ø, fixed mounted

depending on size and situation and
only for fixed ladders

underwater equipment

82467

82468

underwater loud hailers

- power 30 watt by 8 ohm
- frequency 110 Hz – 10 KHz
- assembling depth 0,60-1,00m
- stainless steel in VA4 quality
- 1 loud hailer per 25 m² / 25-40 cbm
- including 15m cable

- 10707** built-in in concrete pool, complete with built-in pot
- 10709** built-up on pool side
- 10710** for suspension on edge of pool, complete with synthetic frame

82465

82462

underwater spotlights

- assembling depth maximum 3m
- stainless steel in VA4 quality
- also available for salt water pool (on request)

- 82461** built-in in concrete pool, QT16 bulb, 200 W, 5800 lm, 30V-DC, with 3m cable
- 82462** built-in in concrete pool, QT16 bulb, 400 W, 11600 lm, 30V-DC, with 3m cable
- 82463** built-in in concrete pool, POWER-LED K2, 27x3,5 W (ca. 250 W Halogen), 3100 lm, 700mA, 12V-DC, with 3m cable
- 82464** built-in pot for spotlights
- 82465** built-up on pool side, QT16 bulb, 200 W, 5800 lm, 30C-DC, with 10m cable

- 82466** built-up on pool side, POWER-LED K2, 18x2 W, 1600 lm, 700mA, 24V-DC, with 10m cable

- 82467** for suspension on edge of pool, complete with synthetic frame, QT16 bulb, 200 W, 5800 lm, 30V-DC, with 10m cable

- 82468** for suspension on edge of pool, complete with synthetic frame, POWER-LED K2, 18x2 W, 1600 lm, 700mA, 24V-DC, with 10 m cable

essential accessories

- connection unit for power supply (depending on quantity and type of spotlights)

underwater windows

- round or square in many sizes available
- version depending on construction of pool

82463

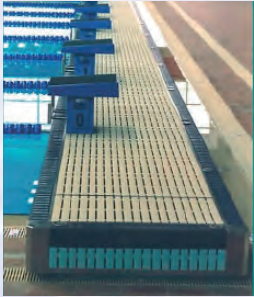

10707

82464

please let us know your requirements and we will send you the ideal proposal

pool booms & moveable bulkheads

moveable bulkhead

- removable separation bridge for the swimming pool
- use space for individual target groups more efficiently
- durable, stainless steel construction coated with synthetic panels
- a moveable bulkhead will be made to measure; our advisors will present you with the ideal solution
- for new pool construction lengthen the basin, so that the pool boom can be placed at the end, and you keep the full competition length

62298

pool booms

- ideal for separating areas of the pool, for changing to a wild water course, at the end of a flume or for sectioning the shallow end of the pool
- very high visibility
- excellent high buoyancy
- soft, flexible and safe
- discs manufactured from closed cell PE foam
- cannot be punctured, never deflates
- lightweight and manageable
- delivered unassembled

62305.3 pool divider, 145mm Ø, per metre, excluding end-fixings

62305.2 pool boom, 155mm Ø, per metre, excluding end-fixings

62305.1 end-fixing set for both ends

Etnaland

swimming pool safety systems

Approximately 400,000 people drown every year around the world; and up to 8 to 10 times more experience a near drowning emergency*. Also in swimming pools; in spite of having trained, alert and motivated staff. Electronic safety systems from SPSC will help your staff to reduce the number of drowning dramatically; but 100% reduction is not possible. EPSAN POOL SPORTS & TECHNICS is proud to be able to offer you these systems as the official distributor. SPSC has 25 years experience worldwide.

*International Life Saving Federation

pool view

Video control with under and above water cameras providing the lifeguards with real time views, the digital recording system makes it possible that after (near accident) the situation can be watched again. POOL VIEW supports your staff and increases safety dramatically. POOL VIEW can be installed in pools, diving basins, aqua parks, lazy rivers etc; for new builds as well as existing pools. Our experts will offer a custom made system for your pool after inspection. Basic system has 8 under and 6 above watercolour cameras, two monitors for your lifeguards, a digital server and a "special" power supply. A maximum of 16 cameras can be connected on one system.

62300

poolhawk

A safety system for pools that are not in use. For example; outdoor pools, hotel pools, camping pools, private pools, fitness centres; outside the opening hours. The POOLHAWK will be connected to the poolside and give an alarm if a human or an animal goes into or falls into the water; the alarm panel in the office will sound to notify owners or supervisors.

A video system can be installed, to see the situation from a distance. The system consists of a head unit, a wireless connected alarm panel and a battery charger.

62303

swimming pool safety systems

bather load monitor

A display shows real time the number of people in the pool; the system works on the base of coloured armbands given out on entry to the pool. The BATHER LOAD MONITOR counts how many of each coloured bands have been issued. A flashing beacon will display the colour and sound an acoustic signal to notify the swimmers that they must leave the pool. After leaving the display shows the number of people still in the pool. The basic system is a control console and the coloured beacon.

62302

aquatic ride timer

An automatic (traffic light system) that controls entry and leaving the slide with a sensor system. This system is available for normal slides and extra wide slides in all shapes and versions. At each start the light for the next user turns "red"; only after leaving the slide (plus the time to go to a safe zone) the light will show "green". It is possible to add a digital display to show the riding times. There is also a video system available to enable the supervisor to view the total slide on the monitor; this system is connected to a digital recorder in order to review later. The basic system has two independent channels, two sets of sensors, one LED traffic light and a control console.

62301.1 basic system for one slide

62301.2 basic system for two slides

62301.3 timing display

bandalarm

This system increases safety near pool, lakes and even the sea and rivers, the system works with a lockable wristband. The system warns by going or falling into water. Specially designed for children or people who cannot swim well, but also for the handicapped and elderly. The alarm will be transmitted to the basic unit by using several units in the large area (for example a recreational park) can be secured optimum. Several wristbands can work simultaneously. A basic system is one basic unit, 4 wristbands and a charger.

62304.1 basic system

62304.2 wristband per piece

new and refurbished projects

EPSAN POOL SPORT & TECHNICS has founded a co-operation with a company who have over 40 years of experience in engineering, production and worldwide installation such as:

- swimming pool equipment
- staircases, balustrades & handrails
- catering & purpose-made fabrications
- sanitary & hospital equipment

In combination with over 30 years of experience from EPSAN POOL SPORTS & TECHNICS we can offer you a complete A-Z package for the installation of stainless steel equipment in any project where stainless steel is required.

We would be pleased to offer you a proposal for whatever you may need and with highly attractive prices.

new and refurbished projects

All products have been made from polished stainless steel in AISI 316-L BS EN 1.4404 quality to withstand the large amount of use in public and commercial facilities.

Balustrades can be supplied with infill of toughened glass or perforated steel sheets.

special production

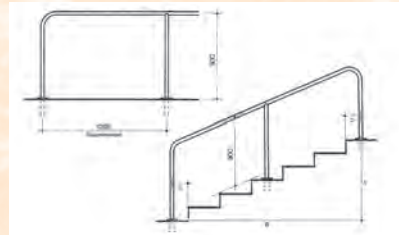

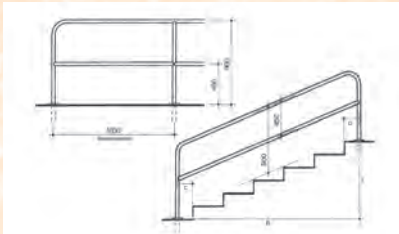

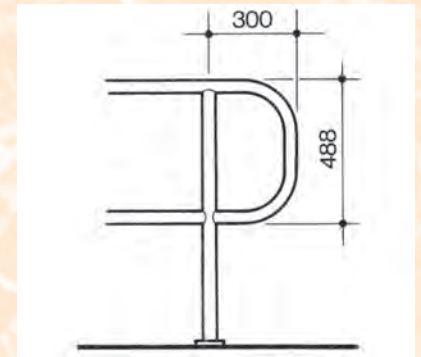

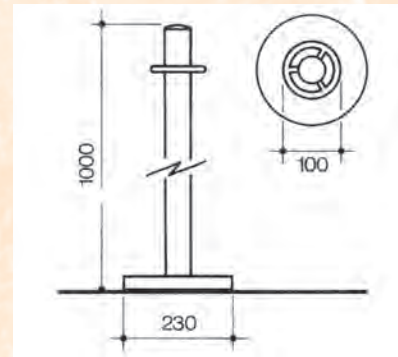

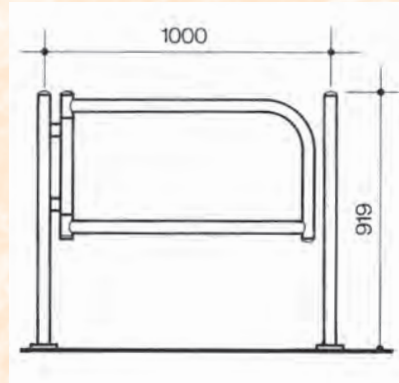

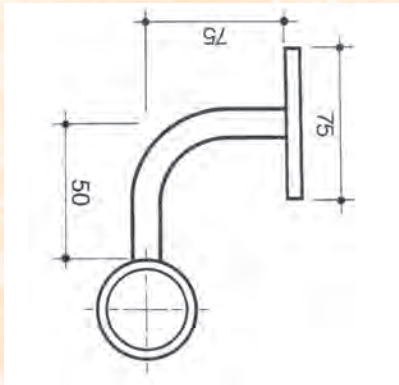

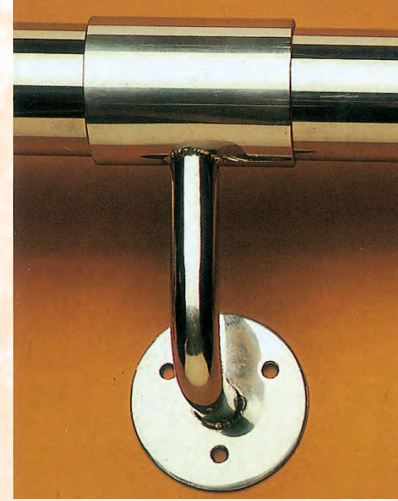

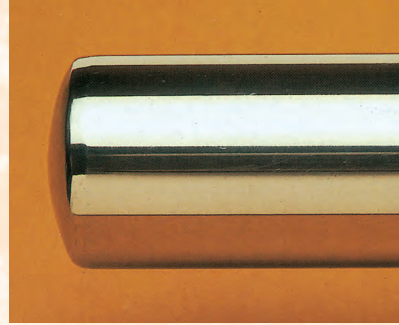

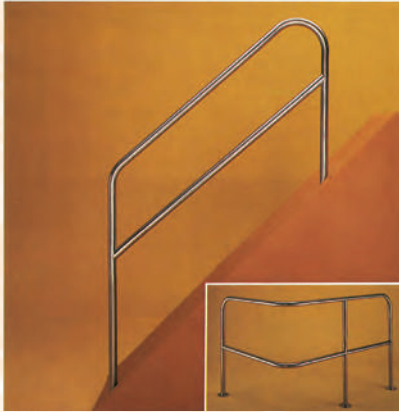

Take advantage of 40 years experience with the production of specially made products in stainless steel for swimming pools, leisure centres, fitness clubs and public areas. Whatever you are looking for, can be arranged in high quality, quickly and at attractive prices. Let us have your requirements and we will give you an immediate quote. All equipment is produced at one factory by specialists with many years experience, making delivery times very efficient.

special production

accessories & fixing material

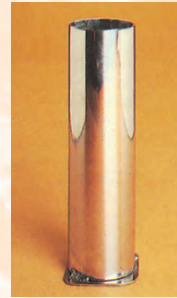

sockets aluminium

- for backstroke turning point, false start installations, water polo goals, water games, swimming lane lines and separation lanes
 - aluminium sockets
 - complete with covers
 - placement depth 100mm
 - pocket size in concrete: 130 x 70 x 70mm
 - price per set of 2 pieces
- 10797.42** for 40mm Ø posts

line holder aluminium

- for fixing of lanes, goals and water games
 - 150mm length with fixing-eye
 - price per piece
- 30272.42** 40mm Ø

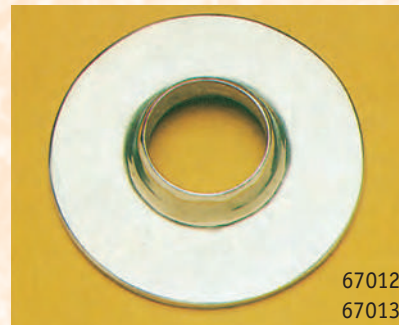

67000

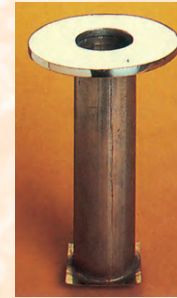

sockets stainless steel, open socket

- for backstroke turning point, false start installations, water polo goals, water games, swimming lane lines and separation lanes
 - stainless steel sockets in AISI 316 quality
 - without covers
 - placement depth 150mm
 - pocket size in concrete: 160 x 60mm
 - price per piece
- 67000** for 38mm Ø posts

67012
67013

67005
67006

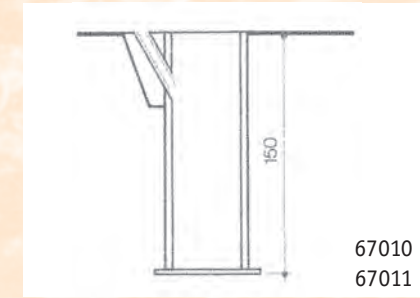

sockets stainless steel, with flange

- for backstroke turning point, false start installations, water polo goals, water games, swimming lane lines and separation lanes
 - stainless steel sockets in AISI 316 quality
 - without with flange, covers
 - placement depth 150mm
 - pocket size in concrete: 160 x 60mm
 - price per piece
- 67005** for 38mm Ø posts
67006 for 50mm Ø posts

stainless steel cover plates

- cover plates for sockets 67010 & 67011
 - stainless steel cover plates in AISI 316 quality
 - price per piece
- 67012** for 38mm Ø posts
67013 for 50mm Ø posts

67010
67011

stainless steel sockets, pinch sockets

- for backstroke turning point, false start installations, water polo goals, water games, swimming lane lines and separation lanes
 - stainless steel sockets in AISI 316 quality
 - without covers
 - placement depth 150mm
 - pocket size in concrete: 160 x 75mm
 - with stainless steel grub screw for tightening against tube when in socket
 - price per piece
- 67010** for 38mm Ø posts
67011 for 50mm Ø posts

accessories & fixing material

stainless steel drop in covers

- drop in covers for sockets 67000, 67005, 67006, 67010 & 67011
- stainless steel drop in covers in AISI 316 quality
- “drop in cover” model; post 150mm long with closed top
- available for 38mm & 50mm Ø posts; please state requested diameter when ordering
- price per piece

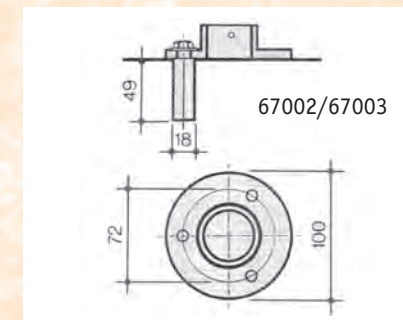

67001

stainless steel line holder

- for fixing of lanes, goals and water games
- 240 mm length with fixing-eye
- price per piece

67014 38mm Ø

collared flange stainless steel

- cover for socket 67000
- stainless steel cover plate in AISI 316
- complete with expansion anchors and bolts
- price per piece

67002 for 38mm Ø posts

67003 for 50mm Ø posts

EPSAN
POOL SPORTS & TECHNICS
www.epsan.eu

accessories & fixing material

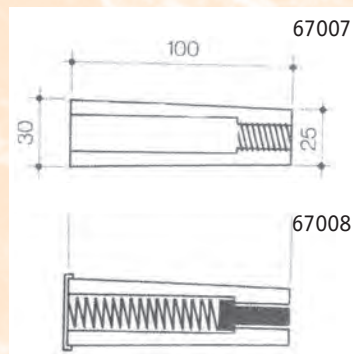

wall clamp

- stainless steel wall clamp for use with fixing-eye (30337)
 - including chemical anchor
- 30336**

fixing eye

- stainless steel fixing-eye for 30336, 67007 & 67008
 - can fit into wall clamp (30336)
- 30337**

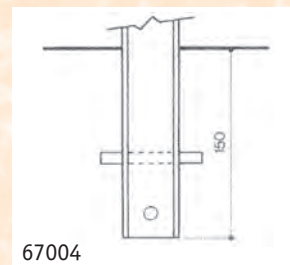

wall anchor super

- for lane lines, goals, water games etc.
 - stainless steel in AISI 316 quality
 - excluding chemical anchor
 - pocket size in concrete: 120 x 40mm
 - price per piece
- 67007** basic version
67008 with spring cover covering hole when bolt not in position

stainless steel lane line adaptor epsan

- for where connection points are behind the gratings
 - steel cable with connection loop on one side and S-hook on the other side
 - steel cable covered with thermoplast tube for safety
 - length to your requirement; please mention length when ordering
 - price per piece
- 67015**

stainless steel grouted fixings

- products can be supplied with upright legs extended to be set in concrete and grouted in position
 - stainless steel legs in AISI 316 quality
 - available for 38mm & 50mm Ø posts; please mention requested diameter
 - additional price against standard version
 - price on request
- 67004**

stainless steel lane line adaptor racco

- for where connection points are behind the gratings
 - drop in post for sockets 38mm Ø with slot
 - adaptor 200mm
 - stainless steel adaptor in AISI 316 quality
 - excluding socket
 - price per piece
- 67009**

vacuum hook

- for solid wall fixing on smooth tiles
 - synthetic material body
- 10572** standard, 100mm Ø, for lanes & water games
82484 double, 118 mm Ø, for large play objects

accessories & fixing material

30724

30724.1

tally counter

- chromed metal
- counter up to 9999
- with 0 proposition

30724 hand-held model

30724.1 desk fixed model

lap counter

- made from synthetic material with synthetic hinges
- with carrying handle
- large 31.5cm numbers

30688

30688

floating thermometer

- vertical, free floating thermometer
- rod-shaped thermometer with floating buoy
- with stabilising anchor
- 550 x 120mm
- records from 0 up to +50 degrees Celsius

10567

ball carrier nets

- strong PE ball carrier nets

10136 5 balls

10137 10 balls

mesh bag

- for 10-12 balls & small equipment

• size 92 x 47cm

62279

pump / compressor

10998 double action 4 litre pump, for large balls & inflatable's

80531 compressor for balls

80565 compressor for inflatable's

30485 hand pump with needle
